MENLO PARK RECORDER

A PAPER DEVOTED TO THE BEST INTERESTS OF MENLO PARK AND SAN MATEO COUNTY

VOLUME 9 — MENLO PARK, SAN MATEO COUNTY, CALIFORNIA, FRIDAY, OCTOBER 23, 1931 — No. 1

P. T. A. Sponsors Sunday Concert At Woodland Theatre

Seventeenth District, San Mateo County, California Congress of Parents and Teachers is sponsoring the concert to be given by members of the San Mateo county high school bands, in Woodland Theater, Hillsborough, Sunday afternoon, October 25th at 2.30.

The band of 85 members will present an interesting program under the direction of Mr. E. O. Brose, Burlingame high school, and Mr. Max Gelber, Sequoia Union high school, Redwood City. Special features will be solo numbers, and a saxophone octette by members of the San Mateo County High School Band.

Admission of 25 cents for adults and 10 cents for student of the Grammar grades and high schools, is within the reach of all and it is hoped that those who are interested in the musical progress of the young people will avail themselves of this opportunity to hear them.

The proceeds will be used to further the work of Child Welfare in the district. Tickets may be secured from the Congress units of the district of the music chairman of the district, Miss Gertrude Baker. In Menlo Park, they may be obtained from Mrs. Floyd C. Beach, Santa Cruz avenue. In Las Lomitas district they may be purchased at the school from Mrs. F. R. Stowe.

TWO PLAYS TO BEPRESENTED AT LITTLE THEAER WED.

Two plays will fetuare the meeting of the Community Theater group to be held Wednesday evening at 7:30 in the Little Theater of Sequoia Union high school. One of these is "Solemn Pride", by Geo. Leighton, which is being directed by Miss Patricia Salmon. Among those appearing in it are Mrs. Chas. Rider, Miss Charlotte Rider, Mrs. Hobson and Miss Marjorie Landers.

Names of the members in the other cast have not been disclosed as yet but include people of the community.

Tryouts for coming plays will be held immediately following the presentations, according to Claude van Patten, dramatics director.

November 7th is the date set for a School Trustees' Institute to be hel din Judge Swart's chambers in the Court House at Redwood City. The meeting will be called to order at 10:30 a. m. Matters of legislative interest vital to the schools of this county will be discussed at that time. The public is cordially invited to attend the Institute.

The Board of Education of San Mateo county will oonduct an examination on the Constitution for teachers in serice and others needing to meet specific credential requirements on December 5th, 9:30 a. m. in the Central School, Redwood City.

Fencing Is Introduced As Menlo Activity

A course in the fundamentals of foil fencing, which is similar to the course given at the University of California, has been introduced by Robert Adams, holder of various intercollegiate and open titles on the Pacific coast.

Mr. Adams studied under Boris Von Arnold and Robert Miller during his four years at Berkeley. At different times he was manager, captain, and coach of the University of California fencing team. The course which is open to high school as well as junior college students, has proven very popular.

Penry DaMant of Menlo Park and Miss Lois M. Elliot, of Palo Alto were married in the latter city on Wednesday.

Will pay cash for 1925 or later Ford or Chevrolet. J. E. Cooper, Menlo Park. *

Sequoia High Defeats San Jose Grid Team

Sequoia high varsity defeated San Jose football team last Friday in the second league game of the season. A crowd of approximately 3,000 people witnessed the Cherokees run up a 27-0 score.

Consecutive line bucks by Rolan Craven, Indian fullback, scored the first touchdown for the Sherokees in the second quarter Jens Bugge added the extra point with a place kick between the standards.

A spectacular 53-yard run by Charles Preston, Sequoia half, placed the ball on the nine-yard line in the third quarter. MacQuilkin then carried the ball over for the second touchdown, Bugge again converting.

Twice the San Jose goal linc was crosse din the last period; once by Preston on a forward pass, which was converted for the extra point. The second tally was registered by Eno Ferrando on a quarterback sneak.

Friendly Indians Hold First Meeting Today

The Cherokee Friendly Indians of Menlo Park will hold their first meeting o fthe year at the Presbyterian church this afternoon. This tribe is now entering on its third year of activity under the leadership of Francis Johnson. After a short business meeting the boys will play a football game with the Cheyenne Friendly Indians of San Carlos.

The Cherokee Friendly Indian Tribe is open to all boys of Menlo Park and the vicinity between the ages of eight and twelve. Roy A. Hohberger, the local secretary of the Y. M. C. A. will be present to help in the reorganization and to officiate at the game.

Waterfowl Season Cut To One Month

Now that the waterfowl hunting season has been definitely cut to one month this year by the federal government, hunters are interested in the bag limit regulations that will be enforced by the Division of Fish and Game during such a short season. The season extends from noon on November 16 to December 15, inclusive.

Waterfowl regulations as prescribed by the United States Department of Agriculture will be strictly enforced this coming season by state game wardens.

Bag limits o nducks, geese, brant and coot as provided under federal regulations, and which will be enforced by both federal and state game wardens are as follows:

Ducks (except wood duck and eider ducks), 15 in the aggregate of all kinds per day, 30 in possession.

Geese, including brant, 4 in the aggregate of all kinds per day, 8 in possession.

Coots or mudhens, 25.

Relief Agencies Will Make Winter Plans

On Friday, October 30 at 8:00 o'clock P. M. at the Palo Alto Community House at University avenue and the Highway, a special meeting will be held by representatives of local relief agencies and others who are concerned with organized preparation for relief problems threatened by the coming winter.

A coordinated plan has been approved for the work of the Community House, the Community Shelter now underway, the Red Cross Chapter, and the Palo Alto Benevolence Association. Details of the plan will be released at this meeting.

Combining with this meeting, an outlne of the Red Cross Roll Call will be given. There will be no other meeting for Red Cross District Captains. It is urgent, however, that these Captains attend.

It is time to be prepared for our winter relief measures with intelligent team work, a knowledge of the problems, effective organization and public comprehension.

Attendance of interested residents is welcomed.

Local Radio Dealer Opens New Store On Santa Cruz Ave

R. C. McMurray, for a long time nection with T. B. Hunnell's Safety Electric Works, has moved his business to the store in the Bank Building on Santa Cruz avenue, and will continue his radio store in connections with other classes of electrical goods at that place.

McMurray is an expert in his line and reports that business is good. When the radio set is sick, Dr. Mc is always available and as a trouble shooter of this sort can't be beat. In the new location McMurray will carry a full line of radio tubes and accessories as well as radio sets of the highest quality and renowned make. In addition to the radio line he has a goodly stock of vacuum cleaners, electric washers, electric clocks, etc., and the prices are the same as in the big cities so close at hand with the added security of expert service for the same if it is needed without the necessity of either sending the appliance out or waiting for some one to come down from San Francisco to do the work.

The buying public is urged to see local merchants for any thing that it needed before going else where as money spent at home always returns in some extend to be used over.

Mr. McMurray will be pleased to welcome his many local friends and others at his new store and says that every courtesy and service will be extended to all.

BELLARMINE SENIORS START FOOTBALL DANCE

The first football dance of Bellermine will be introduced by the seniors tomorrow evenig in the gymnasium of the school. This informal dance will be an annual addition to the two traditional like events, namely the Campus Dance in December and the Junior Prom late in the Spring.

Guests of the seniors will be the alumni and the present students of the other classes. Senior class members are allowed the priilege of an extra bid.

Cremation Long in Use for Disposal of Dead

Cremation is one of the three common methods of disposing of human remains which antedate history, the others being simply exposure and burial or entombment. Cremation was originally widely prevalent among the Indo-European races. Throughout northern Europe graves of the Bronze age contain not skeletons but urns for funeral ashes. Cremation was the general practice of the Romans for hundreds of years, while the Greeks also practiced it to a great extent. Many of the early American Indians burned their dead; the custom was common of old in England and in Gaelic and Germanic Europe; and in India and parts of other oriental countries it is regularly followed today.

With the spread of Christianity, however, cremation became a rare thing. Charlemagne is said to have punished with death those who practiced it. Discussions looking toward its re-establishment began a century or two ago, but nothing came of them until Italy sanctioned cremation in 1852 by revoking prohibitory laws. It was legalized in France in 1887, and had been instituted in England two years earlier. It is now practiced to some extent in almost every country.

The Bell That Never Tolled

The Czar Kolokol lives in no palace and rules no nation; in fact, he does not live at all, being not a ruler, but a bell. The Czar Kolokol is the name of the largest bell in the world and the tourist may see it on its pedestal of granite at the foot of the tower of Ivan in the Kremlin, Moscow. It weighs 200 tons and at the base is 11 inches thick, while it is 54 feet in circumference. It is a broken bell; broken, it is said, when it was first tested, but it was never hung; the injury occurred before it could be made to ring, so that it is devoid of all tone. It has bas-reliefs showing the Czar Alexis Milkhailovitch and the Czarista Anna Ivanova.

Archbishop Hanna Blesses Statue At Ceremonies Here

Wednesday afternoon a statue of St. Joseph, the patron saint of St. Joseph's school, was blessed by Archbishop Hanna, and the grotto in which the statue is placed was dedicated with appropriate ceremony. A large number of the clergy from the bay district assisted. Thomas Glynn sang the hymn "Ave Maria."

The archishop in a well phrazed address paid a splendid tribute to Mother Foley in whose honor the statue was installed at the pahochial school by the many loving friends of the devoted Sister who has presided over the local school for manymany years. The statue was made in Germany at the order of her friends to celebrate her silver jubilee and sent to this courty where it was placed near the entrance of the school last spring.

As it has always been the desire of Sister Foley to have a shrine of St. Joseph on the grounds, she wa sexceedingly happy to see the beautiful bronze representation of the devoted saint unveiled in her presence.

Archbishop Hanna stated that the parents of children attending the school were fortunate in having Mother Foley in charge and were assured that the minds of the children were properly moulded during the plastic period of their lives.

It wa san eloquent tribute to a deserving woman who has and is devoting her life, time and energy to the proper Christian training of the youth that come under her care and thus assist them in becoming better men and women.

St. Joseph's school has a high rating as an educational institution up and down the peninsula, and many of Menlo Park's most respected and prosperous citizens starte their education at that school.

Splendid Records Made by Old Clipper Ships

The clipper ships which were constructed for the California trade were built with extreme care, although, as far as possible, everything was sacrificed for speed, for freights were high and prices depended upon the quickness with which goods could be delivered to the Pacific coast.

Clippers costing as high as $80,000 sometimes paid for themselves on their first voyage. There is the story of one old sea captain who was anxious to carry sail as long as possible and padlocked his gear so that sailors could not take in sail without orders.

The Flying Cloud, which was built in East Boston by Donald McKay, was one of the fastest clippers ever launched. She had a figurehead of an angel on the wing carrying a speaking trumpet. Her mainmast, including the topmast and skysail pole, was 200 feet high; her main yard measured 82 feet and her bowsprit and jib-boom projected 58 feet.

She sailed from New York to San Francisco in 89 days and 21 hours, covering in one day 433 statute miles, 42 miles faster than any steamship had then done in the same time. On this trip some of the crew had to be put in irons, although subsequently released to work the ship, and the first officer was suspended from duty because he disobeyed the captain's orders and cut the rigging. For a number of days the Flying Cloud averaged 13½ knots, and sailed for 5,912 miles at an average of 227 miles a day.

Why Foreigners Shudder

An English publication prints the following list of words ending in "ough," and adds the pronunciation of the more obscure words, some of which are seldom used in this country.

Messrs. Gough (goff), Hough (huff), and Clough (Cluff), though tough enough, thought through the day that they would visit Mr. Brough (Bruff), who, having a hiccough (hiccup) and a cough, lived in a clough (cluff or clou) with plenty of dough and a tame chough (chuff), kept near a plough in a rough trough, hung to a bough over a lough (loch). A slough (sluff) of the bank into the slough (sloo) injured his thoroughbred's hough (hock).

No wonder the foreigner shudders at those four terrible letters!

Girl Scouts Preparing For Sale Of Christmas Seals

Girl Scout of San Mateo county are busy already folding and preparing Christmas Seals for the annual seal sale in this county for the benefit of the San Mateo Preventorium.

Working under the direction of Mrs. W. Martin of Hillsborough, member of the board of managers of the San Mateo Association for the prevention of tuberculosis, the Girl Scouts have prepared thousands of the stamps for mailing when the sale opens after Thanksgiving.

This seal sale is conducted each year under the direction of this San Mateo association of which Mrs. Harry S. Dana is president, and the proceeds from the sale are used to support the San Mateo Preventorium on North Claremont street, San Mateo, where underpriviliged boys and girls from all over San Mateo county are nursed back to normal health.

County Fall Flower Show Opens Today

All the colors of the rainbow will be seen in lavish profusion at the annual San Mateo County Fall Flower Festival, which opens today in the gymnasium and grounds of the Junior College and grounds in San Mateo. The tall stately chrysanthemum, both the huge and the tiny variety, will be displayed in a bewildering array of pink, white, yellow, bronze and red. Orchids, cyslamen, roses, carnations, pink and blue hydrangeas, dahlias, coleus and begonias, colorful foliage and berries will attract by their beauty and their fragrance.

An autumn show would not be complete without the colorful fruit and vegetables which ripen so profusely in the fall. Golden pumpkins, russet apples, pomegranates, persimmons, grapes etc., will add a gay note to the ensemble.

An elaborate floral parade will wind through the streets of San Mateo tomorrow afternoon at 2:30 o'clock.

The three day festival with its accompaniment of music and entertaining features, will close Sunday night.

Hart Contributes Antiques

Mr. E. H. Hart is the first one to answer the call of the Little Green Door and contribute antiques for a winter show window of the Menlo Park shop here last week.

Mr. Hart's donation consisted of old pictures of Menlo. Other contributions are not known but will be consistent to the plan of showing old objects of the community.

Charles Corbett, one of the leading jockeys of the country, is coming to Tanforan for the meeting to open Friday, November sixth. He has piloted winners on all the important tracks of the country and right now is even in better form than ever before. In recent weeks he has been accepting mounts at Hawthorne.

FOR RENT OR SALE—3 room house unfurnished, 1065 Valparaiso. Oct 1

Don't fail to send in your list of work for unemployed this winter.

Garden Fete, Huge Success, Will Be Repeated Sunday

The garden fete at the Peter Bush estate for the benefit of the unemployed was a most gratifying success, nearly three hundred dollars being added to the fund.

The affair which was held last Sunday will be repeated again this coming Sunday, and from all indications will draw a larger crowd than before.. There will be six valuable gate prizes awarded at 3 o'clock in the afternoon and all merchandise left over from last Sunday's afair will be disposed of in the usual manner.

The attractions of the day will consist of whist games on the beautiful lawns, with suitable prizes for the winners and dancing and games of various kinds have been arranged of the amusement of all. A ten piece archestra will furnish music for the occasion.

A musical program has also been prepared and will be under the direction of the Oakland Lodge of Elks.

There will be no admission charge and parking space inside of the grounds will be under the supervision of the locti Boy Scout Troop.

DEATH OF D. H. LAFFERTY LOSS TO STATE MOTORDOM

With the passing of D. H. Lafferty, president of the California State Automobile Association, motorists lost a friend who had devoted much of his life to their interests. Lafferty died early last Tuesday morning at the General Hospital in Santa Rosa, following a brief illness. He was 59 years old and a native of San Francisco.

The Ladies' Auxiliary of the Presbyterian Church will hold its Annual Bazaar on Saturday afternoon and evening, November 7. The usual bazaar articles will be offered for sale. A startling feature of the evening program will be "The Return of the Spinsters." It will be worth your while to plan to attend.

Miss Edna Grill daughter of Costable and Mrs. Jack Grill has been given a position with the Bank of American in Redwood City.

The ladies of Menlo Parlor, Native Daughters of the Golden West have presented Mrs. Derry with a beautiful police badge, as an emblem of her office, she being Menlo Park's first police woman.

Charles H. Parks, well known in this city where he was for a long time cashier of the local bank has taken a psition with the American Securities Company in San Francisco.

Hrs. Harry Albrecht and Mrs. Elmer Carter were quite seriously injured in an automobile wreck at the corner of Laurel street and Oak Grove avenue, last Sunday.

CALIFORNIA NEWS REVIEW

Frank E. Dayton of Salinas has been elected the new president of the California Association of the B. P. O. Elks.

A committee on watershed protection was announced by Governor Rolph to work with the California Water Resources Commission in preparation of a state-wide water program. The committee was named at the request of the State Board of Forestry.

The town of Adin, Modoc county, was ravaged by fire of undetermined origin recently. Several business houses, the City Hotel, the Community Hall and other buildings were destroyed. The balance of the town was saved with difficulty when citizens formed bucket brigades.

Deputy State Controller Claude E. Cooper has announced he will pay 38 legislative claim bills totaling $101,541.75 as result of a test suit decision just handed down by the State Supreme Court. The test suit was filed by Grace Takata, victim of a Merced county automobile accident.

J. H. Engasser tells this fish story and he has a 51-pound salmon as exhibit "A." He said he caught the salmon in the Feather river near Marysville without line, hook or spear. He deposes he saw the fish leap on a sand bar and that he swam to the bar and sat on the fish until it died.

Total assessed property values this year in California show a decrease of nearly $1,000,000,000 compared with 1930, according to county reports. The figure this year is $9,402,188,441, compared with $10,203,866,630 last year. Worth of real estate improvements, however, rose from $2,143,372,981 to $2,191,885,304.

Prediction that the new Camino Cielo road, or Ridge Route, completed to La Cumbre Peak Lookout Station will be widened and improved by the county and ultimately made into a first class scenic highway by the United States Forest Service, is made by Supervisor Stanwood of Santa Barbara.

Although not offically completed, but open so that one may comfortably motor over it, the new San Dimas-Spadra county road, which goes over Puddingstone Dam from San Dimas into the Kellogg ranch and on to Valley boulevard, is practically finished. The new road cuts the distance from San Dimas to beach cities by about five miles.

Fresno city leads the entire State of California in per capita consumption of milk, it was revealed in information received by Dr. G. F. Coyner, city and county milk inspector from the California Dairy Council. Fresno's average daily per capita consumption of milk is .960 pints. The city nearest in the state in milk consumption is Berkeley with .880 pints. The per capita milk consumption is figured on the basis of the 1930 Federal census. Turlock is third with .879 pints per capita.

Starr A. Warson has been elected managing director of the Lindsay-Strathmore Irrigation District, assuming his new duties immediately. The Lindsay-Strathmore Irrigation District has been in litigation with a number of other water districts in Tulare county for the last 15 years, and the board of directors for some time has felt the need of a managing director to give his undivided attention to the problems. Among other duties, it will be Warson's endeavor to bring about a better understanding between people of the Lindsay-Strathmore Irrigation District and people along the Kaweah river having prior rights.

An extensive series of soil management extension schools for the fall and winter is being announced by B. H. Crocheron, director of agricultural extension in the University of California College of Agriculture. The schools are being opened in response to numerous requests for information and will cover fundamental principles of soil management and specific problems in soil problems of various districts. In addition to the formal programs the schools will feature open sessions and discusisons and question boxes. No fees are to be charged and the schools are open to all interested persons. The first of these special schools will be held in Visalia and Fresno.

California will receive $393,153 of the funds collected last year by the Federal government for lumber and grazing fees in Federal forests, according to word received from Washington. Of the money, $280,824 will go to counties in which national forests are located, for use in constructing roads and schools. The remainder of $112,329 will be used for roads and trails in national forests. The California allotment will come from a fund of $1,736,858 to be distributed to this and 17 other states.

Only naturalized and native citizens of the United States can be employed by school districts, Atty.-Gen. Webb has informed Dist.-Atty. Greer of Marin county. The law provides that only such persons may be employed in city and county positions and Webb clarified the point relative to school districts. The last Legislature passed this law.

Orange county agriculture produced crops worth $51,581,275 during 1930, according to the annual report of County Agricultural Commissioner Brock. Orchard crops amounted to $44,658,684, of which $41,636,228 was represented by citrus and $1,724,216 by walnuts. Valencias accounted for $35,704,800 lemons $4,176,679. Avocados brought $11,916 in returns last year, showing a steady growth as an industry.

California is one of the 8 states out of 36 reported showing an increase in passenger car registration during the first six months of this year as compared with a similar period in 1930, it is announced by the California State Automobile Association. California's total registration of passenger cars reached 1,855,236. Other states sharing in this indicated return of better business conditions include Connecticut, New Jersey, Florida, Maine, Maryland, Massachusetts, and Rhode Island.

There is such a superabundance of deer in Marin county that it has become necessary to remove restrictions governing their destruction, it was learned recently. M. B. Boissevain, county farm advisor, informed farmers and home owners that they can shoot any deer that invade their properties without reporting the disposition of the animal's bodies. Boissevain declared the State Fish and Game Commission had lifted the restrictions.

"The Pipe of Peace," a pageant presented at the Southern California friendly Indian pow-wow at the Kellogg Arabian Horse Ranch recently, was the feature of the gathering in which more than 500 boys participated. The affair, given under the leadership of the Pomona organization, attracted delegates from Santa Barbara to San Diego. With Indians from the Sherman Institute at Riverside on hand, a thrilling setting was provided for the various entertainment features. The program included Indian exercises, a display of Indian craft, exhibition of the Kellogg Arabian horses, the pageant and community singing.

To avoid the necessity of laying off from 200 to 500 employes during the winter months, the Standard Oil Company has announced construction would start immediately on a new $500,000 pipeline between Ketteman Hills and Estero Bay, near San Luis Obispo. Construction of the pipeline will start 18 months earlier than was anticipated, company officials stated, because of the fact they believed the men should be retained as employes. They will operate on a four day week basis in order to spread the work through the greatest possible number of men. In announcing the work, the company stressed the fact that it has sufficient workers in its own ranks and that outside assistance will not be required.

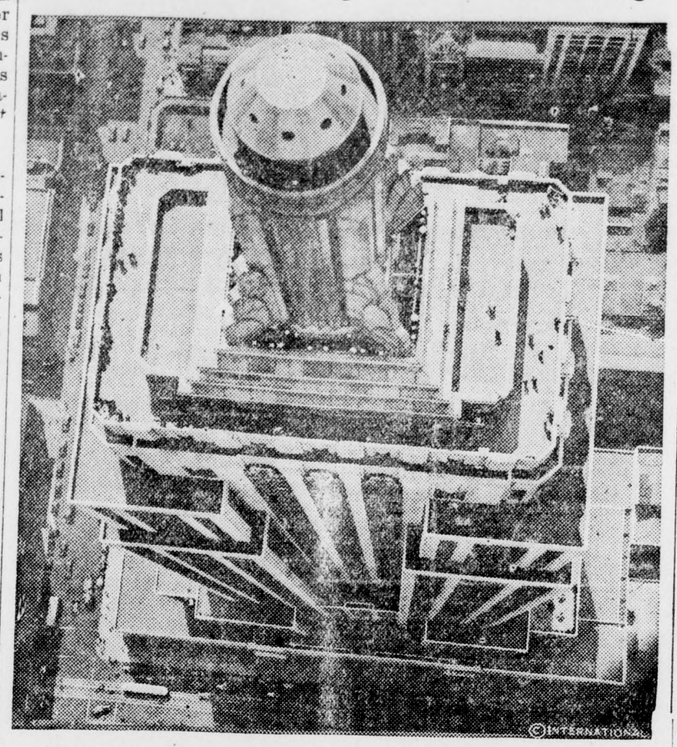
Federal and state relief plans for thousands of California Indians reported destitute and living in squalor were set in motion recently. Governor James Rolph Jr. ordered an investigation of the plight of several northern California tribes, to be carried out by Mrs. Rheba Crawford Splivalo, director of social welfare. Simultaneously with this state action, federal officials began working out a plan of developing a model Indian colony on the site of old Fort Bidwell, in Modoc county, once a pioneer stronghold against Captain Jack and his warlike Modoc tribes. Fort Bidwell is near the lava bed battlefield where Captain Jack and his bucks killed General Canby in a bloody skirmish with Uncle Sam's Indian fighters of the early sixties.

Definite plans for restoration of farm prosperity in California will be discussed at a convention in Sacramento for farmers and representatives of farm organizations by Dudley Moulton, state director of agriculture. The convention, early in December, was called by Moulton following a conference at Sacramento with representative farm leaders from all sections of the state. Four general problems of agriculture in California and elsewhere in the United States will be discussed. These include tariff, marketing, taxes and finances, and water. Correlated problems of these four discussions also will be considered. Governor James Rolph Jr., who has pledged his support to California agriculture, will attend the conclave and discuss with the farmers their problems and the probable solution.

Capturing the title for California for the second consecutive year, the Tomales High School cattle-judging team won the national high school judging championship recently at the National Livestock Show in St. Louis, Mo

Dr. Donald Dickey of Pasadena, head of the ornithology department of the California Technical College of Southern California, is preparing 150 specimens of fauna found in Sequoia National Park for exhibit in the Giant Forest museum.

Odd View of Empire State Building



This never-before-obtained "angle" picture of the Empire State building in New York, largest habitable structure in the world, was made from a dirigible that twice unsuccessfully attempted a mooring to the mast atop the building.

U. S. Will Stop Alien Smuggling

Mammoth Ring Uses Canada as Operations Base.

Washington.—The United States government will prosecute to the limit the members of the mammoth ring which, using Canada as its base, has over a period of eight years smuggled not less than 1,000 aliens a year into the United States at from $100 to $5,000 a head and later blackmailed them.

At least eight internationally known criminals were among those smuggled in and so far have evaded a widespread search for them.

Under arrest are 19 persons, including three government clerks, a lawyer and one of the victims. More arrests will follow, it was said.

The ring's method of operation is explained as follows:

"Runners" were maintained at a great number of small steamship agency offices abroad. When an alien appeared seeking information regarding entry to the United States, these runners would take him in hand.

After explaining the almost insurmountable difficulties faced by aliens seeking entry to America, the runner would guarantee to deliver the Alien into New York city for a special sum, not included in his steamship passage. This sum ranged from $100 to $5,000, depending on how much the victim possessed.

The alien was then sent to Montreal, where he was picked up by the Canadian agent of the ring who had advance information of his arrival. There the victim was bled again if he had additional money.

In many of the cases the aliens were introduced into this country through the use of forged re-entry permits obtained through the co-operation of government clerks, it was said.

When these permits could not be obtained, the aliens were smuggled over the border and delivered at their destination.

Sailors Catch Eagle Exhausted at Sea

Boston.—The dragger Venture II returned from the fishing grounds with an unusual catch—an American eagle with a five-foot wing-spread. The captain, Fred Surette, reported that the big bird, exhausted, had alighted on the Venture's deck while the dragger was 130 miles southeast of Boston Lightship. Engineer W. H. Mayo kept the eagle confined to a box until the boat docked. The bird was presented to Franklin park zoo.

Married After Long Hermit Life

Spends 23 years Alone on Isle Playing Solitaire.

Crisfield, Md.—After playing hermit for 23 years and using 500 decks of cards playing solitaire, a former Jersey City lawyer is married to a Jersey City woman.

Charles Hardenberg, better known as the hermit of Watts island, is the bridegroom. Miss Katherine Seipel, Jersey City, is the bride. They were married at the Methodist parsonage at Accomac, Va., by the Rev. N. J. Hunt.

For 23 years Hardenberg has lived alone on little Watts island, about ten miles from here. In 1908 he left his law practice in Jersey City and landed on Watts island. He was then thirty-three, and he has been alone ever since until he took his bride home with him.

The house to which the hermit of Watts island has taken his bride is made of brick and was built in 1874 by the government for a lightkeeper.

Later an automatic light was installed and the house was sold to Hardenberg's brother.

Watts island was discovered in 1620, and at one time was a flourishing farm with fruit trees and a large acreage of tillable land.

Hardenberg hasn't a radio, he keeps no dogs. Three chickens are the only creatures there beside himself and his bride.

His provisions have been brought from Crisfield and when he got tired of canned goods he caught a few fish or took up a few oysters from the rocks in front of his door.

Hardenberg has lived for 23 years a life of solitude, his only companion the surf beating on the lonely shore of his island. Once he went to New York for the funeral of a relative, and an occasional visit to Crisfield has been his only touch with civilization.

Once a playwright, Wilard Robinson, put in to Watts island on his yacht, and later created a part in a play, "The Sea Window," called Charley Watts, which was supposed to be Hardenberg.

Although he had one of the largest libraries in Jersey City, Hardenberg has few books on Watts island.

Hero of Storm Tragedy Back at Studies

Boy, Guest at White House, Returns to School.

Towner, Colo.—Bryan Untiedt, the boy who visited the President, is back in school with the other survivors of the storm tragedy from which he emerged last winter a national hero.

After he came back from Washington Bryan did not return to school.

"He has seen so much and been praised so much it is time he settled down for a while and thought it all over," his mother said.

This fall, however, the fourteen-year-old sandy-haired, freckled youth again is attending regularly the little school from which he and 19 others set out last March into a raging blizzard which took the lives of several of the children despite Bryan's heroic efforts to save them.

Other survivors of the tragedy are back in school. Some of them have seen Bryan only a few times since March.

But they haven't forgotten. To them he still is "the boy who's been to see the President." At every recess and dismissal the other children gather around him.

"How was Washington?" they ask. "How was the President? How was sleeping on trains? Where's the gun the President gave you—is it any good? What kind of people live in the East?"

Like all the other ranch children, Bryan is modest and quiet. But he answers the little friends to whom he gave his clothes as they huddled together freezing in the school bus that was stalled in the blizzard

"Washington was fine," he tells them over and over. "President Hoover is a great fellow. Sleeping on trains is all right after you get used to it. The gun is at home and it's swell. About the only difference between the people here and in the East is there's more of them down there."

New Submarine Valley Named for Survey Ship

Boston.—A submarine valley, discovered by the United States coast and geodetic survey near the southeast edge of Georges bank, henceforth will be known as "Corsair Gorge." The pit, located off the Massachusetts coast and not previously known to exist, is reported to be more than a half-mile deep in places. It was named in honor of the survey vessel which discovered it—the yacht Corsair, formerly owned by J. Pierpont Morgan.

Surrenders Friend, Then Goes His Bail

Brockton, Mass.—John Duszkiewich was so anxious to go bail for his friend, William Gidis, that he helped police arrest the latter.

Duszkiewich appeared to headquarters and announced he wished to furnish bond for his friend's release. Police, who had sought Gidis in vain on an assault charge, informed Duszkiewich he could do so if he would bring the defendant in. Duszkiewich did.

Water Diviner Claims Streams Aid Health

Bolzano, Italy.—Signor Giovanni Gotsch, diviner for water-seeking citizens of this region, claims that underground streams possess radiations which are beneficial for many maladies.

Gotsch, who has been long noted for his ability to find underground streams by the use of a divining rod, has made experiments in these underground radiations. He claims that a sick person placed over the path of one of these hidden streams reports an improvement in health.

Century Old Water Mill Still Working in South

Moscow, Tenn.—A century old water mill built on the banks of the Wolf river, a half mile from the center of town, is operated on Saturdays by its owner, W. H Pearce, and farmers for miles around bring grain to him to be ground into flour. It is one of the few remaining mills of its type in the South.

Claims World Title for His Traffic Fines

Kansas City, Mo.—To R. M. Rosier of Bolton, Mo., goes the doubtful honor of having paid the highest aggregate of traffic violation fines. He settled for $159, having 30 separate tickets against his automobile.

Young Oklahoma Woman Gets Rifle Certificate

Okmulgee, Okla.—Woman continues her ever encroachment on the so-called "domain of man."

Mrs. Helen H. Croom, young Okmulgee wife, is the first woman in the United States to be recommended to the War department for an instructor's certificate in rifle and pistol marksmanship.

Barred, because of her sex, from membership in the Oklahoma team competing in the national matches at Camp Perry, Ohio, Mrs. Croom entered the match unattached. Although she ranked fourth among Oklahoma's best shooters, she was not permitted to represent Oklahoma because a "woman could not make a suitable instructor."

Entered at Camp Perry meet as a private citizen, Mrs. Croom averaged 98 per cent of her scores. So well did her record stand out that she was recommended for an instructor's certificate.

Famed Lloyds Started in Old Coffee House

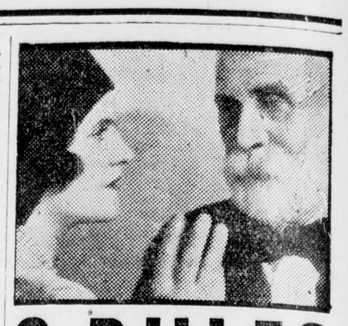
London.—At Lloyds was introduced in 1775 to describe a ship in the highest class both as regards build and equipment. When a Chicago bank official embezzled £400,000 Lloyds paid up without turning a hair. It is reputed to be the greatest insurance concern in the world.

It started business in a coffee house in Lombard street which was frequented by ship's captains and merchantmen, purely for the purpose of marine insurance. Today it is the recognized authority for shipping, its shipping list being the oldest newspaper in London. In addition to marine insurance it will undertake all kinds of risks from the result of a lawsuit to the birth of twins.

As an example of its stability when H. M. S. Lutine sank in 1799 with a cargo of gold, it was insured for a million sterling. The money was paid up within a week.

Runs Ancient Hay Cart

Alfred, Maine.—A hay cart built by members of Alfred's old Shaker colony is now possessed by J. Arthur Parsons. Though equipped with but two wheels, the cart can carry two tons of hay. The original axle was of wood.



3 RULES big help to BOWELS

What a joy to have the bowels move like clockwork, every day! It's easy, if you mind these simple rules of a famous old doctor:

1. Drink a big tumblerful of water before breakfast, and several times a day.
2. Get plenty of outdoor exercise without unduly fatiguing yourself.
3. Try for a bowel movement at exactly the same hour every day.

Everyone's bowels need help at times, but the thing to use is Dr. Caldwell's Syrup Pepsin. You'll get a thorough cleaning-out, and it won't leave your insides weak and watery. This family doctor's prescription is just fresh laxative herbs, pure pepsin, and other helpful ingredients that couldn't hurt a child. But how it wakes up those lazy bowels! How good you feel with your system rid of all that poisonous waste matter.

WHAT HAS TRANSPIRED

Joe Barry, country youth in New York, ekes out a living as caretaker in a poor rooming house and accordion player in Louie Bertolini's restaurant. Lured by the open country, he spends a night in the fields, near Newburgh. Bertolini discharges him. Friendless and "broke," he is offered $10,000 by a man he knows only as "Martin" to impersonate a liquor runner facing arrest. It means the penitentiary, but Joe is desperate. He defers decision until the next night, and is given $1,000 "on account." Next day Joe deposits $800 in country banks, giving his name as Joseph Bradley. Outside a circus tent he sees an accordion and is tempted to play it. A girl, Sue Dayton, niece of the owner, who admires the music, urges him to join the circus, but Joe says he must first return to New York "on business." He has decided to refuse "Martin's" offer. In his room four men accost him. Bewildered, Joe sees the men, who are detectives, find large amounts of money, a machine gun, and two revolvers. Next day, under arrest, Joe is identified by men who had seen him the night before near Newburgh, when two prohibition agents were killed and robbed. Joe is accused of their murder and robbery.

CHAPTER III—Continued

—5—

"Yeh?" asked Pete Maxwell. "Maybe you'd like to see them. We've got them waiting outside."

Fullhouse and Louie were brought in, regarding the prisoner with a detached atmosphere of curiosity, as though they were seeing him for the first time. Louie spread his short arms.

"How should I know?" he inquired to Maxwell's question. "I work in my office all night; I only come out to fire this loafer."

That strange, slow hate began to boil in Joe Barry anew, giving strength to the wakening beating of his heart. Then it was the turn of Fullhouse.

"Sure, I saw a feller sitting over in the corner. A short man. He wore glasses; kind of a light, sandy-haired man and bald."

"You're a liar!" Joe Barry screamed it. Fullhouse shrugged his shoulders.

"How'd I know what you wanted him to look like?" he asked. "Maybe we were looking at different people. That's the one I saw."

The haze closed in again; pierced by new questions as soon as Fullhouse and Louie were gone.

Pete hunched his chair closer to the table. He asked his every question over again, only to receive the same old, dull answers. Then he came to one which he evidently had been saving.

"Now, sport, you seemed a little touchy last night about one particular matter. Suppose we take it up again? Where were you all day yesterday?"

Joe sagged in his chair. He allowed his tired, sanded eyelids to close, and for once, the grisly things which he had faced all this horrible night and day dissipated. He saw the circus lot, the squat forms of the mud-colored tents, the banners flying in the afternoon breeze from the mastheads atop the poles.

Then there was a glittering thing in his grasp, calling to him to play it. There was a girl, fair-haired and trim, with slender strength, a girl with innate trust in the deepness of her blue eyes, the tantalizing hint of warm response upon her lips, the yellow sun creeping through the vagrant strands of her soft, brown hair, and creating there a golden radiance more precious than all the money in the world. She was his girl, whether he ever saw her again or not, his girl to love in memory and in sacred dreams, his girl of one day of happiness. One thing, at least, could remain with him behind bars, bright and fragrant and beautiful.

Joe Barry opened his eyes and centered them. His lips became crooked and ugly.

"Go to h—l!" he said slowly. "All of you!"

CHAPTER IV

JOE'S defiance had anything but a deterrent effect upon his questioners. Here was something which he desired to conceal; therefore it was the thing they desired most to know. But at the end of an hour, Pete Maxwell spread his hands against his chest, straightened and strode away from the table.

"Suppose you let the old Bottle and Stopper have this bird alone for awhile," he said.

When they were alone Pete picked up his chair and brought it to the side of the prisoner.

"Look here, kid," he said. "Let's get together."

It was the first time he had used that term. Joe looked up, with something of wonderment. There seemed to be more of a personal touch to the detective's tone.

"You've been treated in a straight, businesslike manner by men who are in the business of finding out who committed crimes, and who haven't the slightest interest in anything else. That's our job. We're given a set of jig saws that'll work into something if we can piece them together. It's what we're paid for, to keep picking up pieces, and hunting for little angles and curlicues until we've got the puzzle beat enough to decide that twelve men ought to hear more about it. Most of the time," the detective said quietly, "when it's a kid like you, we hope we can't work it out."

Joe looked up. His hand half raised.

"Then why don't you give me a chance!" he begged. "I've told you I didn't even know what all this was about until you dragged me in here!"

"You don't expect us to believe that you didn't even see anything about it in the newspapers? You told us about being near Orr's Mills on a vacation. That isn't a new gag; it's been worked before by people who know they're licked on an identification; to try to switch it into an alibi. But we brought in the people, didn't we? You showing up there an hour after the murder might have been all right; but it doesn't sound well when it matches up with three guns found in your room and the money off a dead man."

"Martin put them there, just like he called you up so you'd know just when to arrest me."

Pete Maxwell reached into a pocket and brought forth a letter.

"Read it," he said. It was in feminine writing, upon hotel paper:

"I am an Albany woman, in New York for a few days. Naturally, I do not care to give my name, since it is really not necessary, and because this may concern something attracting widespread publicity. I have been reading the papers about a murder which occurred after the overturning of a rum runner's car. While dining last night at Louie Bertolini's restaurant on Eighth street, I heard a young man quarreling with the proprietor over being absent from work. It seemed he had been in the vicinity of this affair, and on thinking it over, I felt you might care to question him with the idea of gaining a clew to the murders."

"So you see," said Pete as he retrieved the missive. "Nobody turned you in at all. You did it yourself. We merely went to the restaurant, found out this letter was true and went up after you. You weren't there; so we waited outside until we saw you come in. Got a lawyer, kid?"

"No, sir."

"Better get one—as soon as they take you to Newburgh. This thing means the chair, you know."

"Yes, sir," said Joe vacantly. Pete looked at his watch.

"Look here," came bluntly. "You're only hurting yourself with this story. I'm not trying to bull you—you're no old-timer, I know that. You haven't got any record. Maybe, if you could show me that you'd been pulled in on this thing, and could tell me the names of the rest of the gang so I could get the real heads of it, maybe I could help you to a lighter sentence. You're not up against any easy rap, and you're going up against an up-state jury. That's where you'll be tried, you know. They give a fellow the chair a lot easier than we do. But it's up to you."

Joe Barry rubbed his eyes.

"Please—" he begged—"please won't you just leave me alone!" His jaw began to jerk, spasmodically. "Keep a fellow up all night, asking him this and asking him that, never give him any chance to rest, twist everything he says into a lie—leave me alone!" His wild fists pounded the table now, until at last little lines of blood broke from the creases. "Leave me alone, you and your death house. You and your promises. You and your lies—leave me alone, leave me alone!"

Gradually he quieted, merely swaying drunkenly. Pete Maxwell rose and walked around him, slowly, cautiously, a puzzled light in his blue eyes. Then, not unkindly, he caught at the prisoner's shoulder.

"All right, kid," he said. "We'd better be moving, I guess."

This time it was another journey by patrol up Center street to a dual building, connected by bridges across the street. Inside one of them Joe was taken and to another cage, on the first floor, whence he could look out upon the monotonous activities of a courtroom. At last Joe was led forward. He heard a question, from above him on the desk—the words were legal and indistinguishable. Then he heard the voice of Pete Maxwell.

"Not guilty, your honor. And if your honor please, it may be necessary to re-arraign him on a short affidavit at the expiration of forty-eight hours, on account of the indictment upstairs and some delay on the warrants."

The man above him had something to say in reply; legalities which Joe did not understand. Then tired and numb he felt the handcuffs again, and knew that he was walking, out of the room and up a long stairway, like the stairway of a castle he had seen once in a motion picture, and after that, into a cage which seemed interminable. They were in the Tombs.

More bars and more grills. Then a key clattered and a door opened.

"In there," said the guard, and added to some one inside: "Here's a gangster pal for you. Now you two rats can each take a corner and squeal at each other."

The door closed. Joe stood there while a trim-waisted youth, his clothing immaculate even here, his hair shining and sleek, his thin, venomous features immobile, except for the jerk of a crooked smile, came sinuously from a bunk. "What's the rap?"

Joe knew the term by now.

"Homicide. They say I killed two state policemen up by Orr's Mills."

"Yeah?" His sleek companion lit a cigarette. "Yeah," he asked again. "Where'd you go to school?"

"I?" Joe stared. "The last place was in Missouri."

"Yeah? Who was your teacher?"

"Miss Price. Why?"

"Yeah?" asked the rat, and, pulling in his under lip, blew his inhalation against his breast. "Why didn't she teach you how to address a gentleman?"

Joe Barry glanced dazedly around him.

"I didn't know I was doing anything wrong," he said. "I've never been in a place like this before."

"No?" the gangster asked. Then suddenly: "Come here and sit down, Wetears." Once Joe was beside him, he whirled, talking in low, swift tones. "What's the idea, stool?" he demanded. "You're not even smart enough to know how to answer my questions. But if you're after information, I'll give you some information. When they take you out, you tell 'em they ain't fooled nobody. Hymie Fradke's still got friends. Tell 'em I'm going to beat this rap if it takes my life. And if I do, somebody's going to get shoved over!"

Joe Barry raised his arms piteously.

"Leave me alone, won't you?" he begged. "I don't know what you're

"How About That Baby That Crucified You? I Suppose You'll Rush Up and Kiss Him."

talking about. I don't know who you are, I don't care who you are! Leave me alone!"

It struck the other man's sense of pride.

"Yeah?" he asked. "You're up for that chopper job on the Newburgh road and you don't know Hymie Fradke?"

Joe strove to leave him. Hymie Fradke, a little puzzled, followed.

"How'd they fasten that rap on you, Wetears?" he asked.

Soon they were talking upon a different basis. It was surcease, a feeling of sympathy which urged Joe forward; Hymie's manner had changed greatly. Now he was settled beside Joe Barry, his thin, carefully manicured fingers tapping on his knees, or jerking his cigarette in a quick swing from his lips, returning it as swiftly. It was not long before he interrupted.

"Talk lower. Whisper—that's better. We didn't just happen to be put in here together. Ten to one, there's a stool in the next cell with an ear as big as a washtub."

The clatter of slum time came, Hymie sneering at the bars. The night count was made and the lights dimmed. Then Hymie took his dulled companion back to the cot and pressed him down there.

"Yeah?" he asked in a whisper. "This guy Martin, describe him again. Never heard him called Big Friday? No, it couldn't be him; he wouldn't do a thing like that in the open. Must've worked through a fall guy." He shook his head. "I never heard of no Louie Bertolini, but that guy don't sound right either." The thing seemed to fret him. He paced awhile and came back. "'S' d—n funny to me," he said to Joe. "That's Big Friday's run up there from Oswego through Schenectady, across to Albany and then down through Newburgh to the Bronx. Ain't I made it for him a dozen times? Yeah, and what do I get out of it? Double-crossed."

An hour went by. The sounds of the street became fainter, giving greater volume to the noises of the cell block, the creaking of bunks as men tossed in their search of sleep, the snoring of the more hardened ones, the maddening sound of some one pacing, three steps and turn, three steps and turn.

Then Hymie was whispering again.

"They gave you a break!" he said grudgingly to Joe. "All you get is the chair; pull the switch and you're out. They ain't so good to me; afraid I'd squawk if I drew the Hot Mama. But I got friends. I ain't in Dannemora yet. That's something more Big Friday don't know; I got more friends in a day'n he ever knew. Wanted it all, didn't he? He'll get it, in a bronze box. Ain't he got it coming to him? Ain't he worth shoving across if you can get at him? How about that baby that crucified you? I suppose you'll rush up and kiss him, if you ever beat this rap? Yeah! You'll do what I'll do to Big Friday. You'll set him over, that's what you'll do!"

His voice faded in a confusion from beyond. The shadows of twisting forms were on the walls; guards seemed to spring from nowhere and everywhere. Wild, racking, the screams of a crazed man rose higher and higher, and then were muffled. There was the scuffling of forms, moving toward the door. Then came the clang of steel, some one screaming at a distance, then farther away, still farther. In the cell with Hymie Fradke, a man walked up and down, his lips bloodless, his eyes burning in fixation.

"Yes, that's right!" he agreed. "He's got it coming to him. He's made me a murderer; well, I'll be one, if I get a chance!"

The cell block stilled. Slowly Joe walked to his bunk, and sat there, a hand pounding against the steel. After a while, Hymie walked across and caught his shoulders with thin, strong fingers.

"Wearing yourself out ain't no way to beat a rap," he commanded. After awhile a dazed man slept.

* * * * * * *

They came for Hymie Fradke the next morning and led him away. Joe did not know where. At noon, they brought him back again. When Joe asked him concerning the trial, he only rolled his eyes and spread a hand.

"I ain't saying, nothing!" he answered noncommittally. He was silent until they came to return him through the Bridge of Sighs to the Criminal Courts building for the afternoon session. The long hours passed for Joe, in sodden staring about his cell, in mingling with the other prisoners during exercise hours in the corridors. At last Hymie came back again. He was more nervous now, like a sleek animal eyeing its every surrounding in the hope of an opening. At last he broke forth:

"Keep a guy sitting in that cage all day long. They didn't even begin my trial! Fine on a guy's friends," he growled softly. "Keeping a guy caged up all day and then doing nothing!"

As night came, he seemed more stealthy, more excited. He walked up and down, his lips moving. Suddenly, however, he halted, and looking at Joe as if just realizing he was there, he asked:

"Got any jack, Wetears?"

"Money, you mean? No, they took it all away from me when I was arrested."

"Jeze! You are a Wetears, ain't you?" He explained nothing more until made ready for his bunk. Then, reaching into his shoe, he removed the insole and brought forth a tightly folded bill from beneath it. "Here, Wetears," he said. It was a twenty-dollar certificate.

Joe took the currency with some surprise.

"They told me I could get money from my envelope whenever I needed any," he said.

"Suppose you get hold of a right screw that'll sell you a paper of snow? They won't give you money downstairs for that. I got mine!" he whispered after a time. "I know when I'll use it, too."

Nor was there an explanation of that remark. He only paced for awhile, sat on his bunk, eyed Joe eagerly, like a man obsessed with inner thoughts, then turned away, silent. The night passed, with its myriad noises. Hymie made ready for another day in the cage, awaiting his turn in the courtroom. Suddenly he turned to Joe, whispering.

"Tell you what I'll do!" he exclaimed. "I'll bet you twenty I beat Dannemora!"

Joe reached for the money.

"It's your twenty," he said.

"Yeah?" Hymie blinked with memory. "That's right," he said. "No fun betting against my own money."

A few minutes later he was taken away to wait anew in the detention room. Joe went back to his bunk; almost immediately he was on his feet again. The guard had returned, and was unlocking the door, this time for him.

Pete Maxwell was waiting to check him out over the Bridge of Sighs. Then down the long, broad staircase they traveled and once more into the magistrate's court on the first floor, where the cage held some twenty men of which group Joe became a silent member.

One by one, guards came to the door, opened it and beckoned men out, pulling the light door, with its ordinary reversed spring lock, swiftly shut behind them as the prisoner passed forth.

Now and then new men came to take the place of those who had departed, some handcuffed, one in an Oregon boot, a heavy, block-like thing of steel which fitted about his ankle and which he dragged with effort. They brought him in and unfastened the heavy burden for a brief rest while he was in the cage; Joe watched them with wide eyes. He'd never seen a man trussed like this. Steadily the calls came, for prisoner after prisoner; one by one they passed forth until only three men remained in the big, steel-wire cage, a voluble Italian, Joe Barry and the blocky, black-featured man who slouched there, one foot extended as if in constant waiting for the heavy steel handicap, now lying in disuse upon the floor. Then they came for the Italian and took him forth. A second guard entered, closed the door behind him and, motioning to the blocky prisoner, began the affixing of the Oregon boot that he might be ready for his summons. But as he raised it to snap about the extended ankle, he paused, and listened, his head turned sharply toward the outer courtroom door.

Small, but Important

Palestine is a small territory, only 140 miles wide in the north and 80 in the south. But 9,000 square miles are comprised in its area.

When You CAN'T QUIT

Fatigue is the signal to rest. Obey it if you can. When you can't, keep cool and carry-on in *comfort*.

Bayer Aspirin was meant for just such times, for it insures your comfort. Freedom from those pains that nag at nerves and wear you down. One tablet will block that threatening headache while it is still just a threat. Take two or three tablets when you've caught a cold, and that's usually the end of it.

Carry Bayer Aspirin when you travel. Have some at home and keep some at the office. Like an efficient secretary, it will often "save the day" and spare you many uncomfortable, unproductive hours. Perfectly harmless, so keep it handy, keep it in mind, and *use* it. No man of affairs can afford to ignore the score and more of uses explained in the *proven* directions. From a grumbling tooth to those rheumatic pains which seem almost to bend the bones, Bayer Aspirin is ready with its quick relief—and always works. Neuralgia. Neuritis. *Any* nagging, needless pain.

Get the genuine tablets, stamped with the Bayer cross. They are of perfect purity, absolute uniformity, and have the same action every time. Why experiment with imitations costing a few cents less? The saving is too little. There is too much at stake. But there *is* economy in the purchase of genuine Bayer Aspirin tablets in the large bottles.

Band of Rescuers

The Crag Rats of Hood River, Ore., is a group whose avocation is the rescue of persons lost on mountains. It was organized in 1926, although the idea of such a rescue group had been suggested by a young lumberman, A. L. Anderson, some 12 years ago. In that locality scarcely a month passed that some one was not lost on some of the mountain peaks, so Anderson and other experienced mountain climbers formed their organization. In five years they have averaged six notable rescues annually and many others of lesser note.

It Hardly Seems Possible

It is hard to realize the speed with which the germs responsible for sore throats and coughs can multiply, once they get a start in the delicate tissues. From a few to a million may be a matter of but a few hours. But you can always stop them short with a few applications of B. & M., The Penetrating Germicide. It is always dependable as a destroyer of the bacteria which do so much damage in the throat and lungs. Easy to apply and quick in action, it is a boon to people who are easily susceptible to such infections—one thing which should always be in the medicine chest ready for emergencies. Your druggist should have it. If not, send us his name and $1.25 for full-size bottle, postpaid. Helpful booklet free. F. E. Rollins Co., 53 Beverly St., Boston, Mass. (Adv.)

Parrot's Greeting

Residents of Houston, Texas, were awakened one night by a loud cry of "Hello." Each thought it was at his own door. Heads popped out of windows and doors, investigating the call. No one could determine who was calling until one resident spied a huge green parrot. It was flying close above the houses, giving the greeting.

Success is not always "luck."

After nearly every crime, there are a whole lot of people "baffled" who oughtn't to be.

Denver Boy is a Winner

Every mother realizes how important it is to teach children good habits of conduct but many of them fail to realize the importance of teaching their children good bowel habits until the poisons from decaying waste held too long in the system have begun to affect the child's health.

Watch your child and at the first sign of constipation, give him a little California Fig Syrup. Children love its rich, fruity taste and it quickly drives away those distressing ailments, such as headaches, bad breath, coated tongue, biliousness, feverishness, fretfulness, etc. It gives them a hearty appetite, regulates their stomach and bowels and gives tone and strength to these organs so they continue to act normally, of their own accord. For over fifty years, leading physicians have prescribed it for half-sick, bilious, constipated children. More than 4 million bottles used a year shows how mothers depend on it.

Mrs. C. G. Wilcox, 3855½ Wolff St., Denver, Colorado, says: "My son, Jackie, is a prize winner for health, now, but we had a lot of trouble with him before we found his trouble was constipation and began giving him California Fig Syrup. It fixed him up quick, gave him a good appetite, made him sleep fine and he's been gaining in weight right along since the first few days, taking it."

To avoid inferior imitations of California Fig Syrup, always look for the word "California" on the carton.

Don't worry about a child's queer antics. He will outgrow them.

WORLD SUFFERS IRREPAIRABLE LOSS

Thomas Edison, electrical wizard has passed to the great beyond and with his passing the world has suffered a loss which canont be made up, in any sense of the word.

Edison was the only rival the sun and moon ever had. He developed the electric light, electric power and other appliances too numerous to mention.

His achievements were not for the benefit of any one nation or people, the whole world profitted by the wonders he wrought, and they were manifold.

Thomas Edison was the greatest friend that man ever had. He was continually dreaming of some new way or method of lightening the burdens of life or giving more pleasure and enjoyment to his fellow men and then making his dream come true. The world will miss him, and miss him badly.

Truly Thomas Edison was the greatest man the world has had.

TRAFFIC SIGNALS BEING INSTALLED

The city fathers are to be complimented on the fact that they have had traffic signals placed on the dangerous intersection of Santa Cruz avenue and the state highway. This has long been an exceeding bad crossing, and Menlo Park is to be congratulated on the fact that there has not been a fatal accident at this point since the city was incorporated. A large amount of credit is due to the efficient police department. This corner has been a death trap for officers directing traffic as well as for the pedestrian and automobile driver.

The city is fortunate in the fact that it has a city council that is alive to the needs for safety, and when the needs are found will take the necessary measure to insure that safety.

We congratulate the city council on this move for the protection of life and limb of our citizens. with the signals working and the prompt arrest and punishment of any one running through them it is safe to say that this corner will no longer menace the public.

CHEAPER TO PREVENT ACCIDENTS

W. H. Cameron, managing director of the National Safety Council, recently pointed out that the strength of the orgainzed movement in the United States lies in the fact that "it is cheaper to prevent an accident than to pay for it."

As a rule, we look on accident prevention as being a humanitarian work—as a saver of lives. And that, of course, is the first need. But it likewise pays for itself, time and again, in plain dollars and cents.

The safe etsablishment, as the records of hundreds of great industries of all kinds can show, is the efficient and profitable one. It is the one where morale of the workers is highest, and where they are most contented. It is the one where unit costs of production are lowest. Every accident, no matter how small, extracts a direct financial toll—in lost time, in interruption of a job, in medical and legal attention, in insurance compensation. Added to this are the "hidden costs" of accidents which are shown to be even far greater than these apparent costs.

Accident prevention, in short, is the best kind of business. It is time every industry, whether it has two employes or thousands, realized this, and realized, as well, that a large percentage of accidents are easily preventable. Industry has made a fine record in recent years in reducing both the frequency and severity of accidents—each year should see this record bettered.

NOTICE OF TRUSTEES' SALE

On Saturday, the 17th day of October, 1931, at ten o'clock A. M., at the main entrance to the County Courthouse of the County of San Mateo, in Redwood City, County of San Mateo, State of California, SAN MATEO COUNTY TITLE COMPANY, a corporation, Trustee, will sell at public auction to the highest bidder for cash in lawful money of the United States, the following described real property situate in the County of San Mateo, State of California, described as folows, to-wit:

Lots numbered thirteen (13) and fourteen (14) in Block numbered fifteen (15) as shown on that certain map entitled "Map of Co-operative Land & Trust Co. Tract Subdivision No. One of North Palo Alto, San Mateo Co., Cal. Showing the Re-Subdivision of Blocks 13-14 and 15, Except S. ½ of Lot 3, Block 15", filed in the office of the County Recorder of San Mateo County, September 23, 1912, in Book 8 of Maps at page 23.

Said sale will be made to satisfy the obligations secured by and pursuant to the power of sale conferred in that certain Deed of Trust executed by L. G. ALLEN, unmarried, to FRED G. PERROTT and H. N. MADISON, Trustees, for the benefit and security of MYRTLE HARTONG, dated April 14, 1930, recorded March 28, 1931, in Book 520 of Official Records at page 116, records of San Mateo County, California.

The interest of MYRTLE HARTONG, beneficiary, has been assigned to WILLIAM J. GOWANS and ELLA M. GOWANS, by Assignment dated June 2, 1931, recorded June 4, 1931, in Book 520 of Official Records, page 470, records of San Mateo County, California.

SAN MATEO COUNTY TITLE COMPANY, a corporation, has been substituted as Trustee in place and stead of FRED G. PERROTT and H. N. MADISON, by Substitution dated June 5, 1931, recorded June 9, 1931, in Book 569 of Official Records, page 35, records of San Mateo County, California.

Notice of breach of said obligation and election to sell said real property was recorded in the office of said County Recorder on June 9, 1931, in Book 517 of Official Records, page 251.

IN WITNESS WHEREOF said corporation has execuled these presents by its officers thereunto duly authorized, this 23rd, day of September, 1931.

Fish For All

FISH is said to be brain food. A generation ago, youngsters used to eat it in order to fortify themselves for school examinations. It's rather doubtful, however, whether this last minute strategy ever got a faltering student through his ordeal. On the other hand, if the mothers of that generation had included fish regularly in the family diet, they might have helped do away with the troublesome thyroid disturbances that so often affect adolescents. For modern science has proved that the iodine content of fish is a help in combatting thyroid troubles.

Wherever You Are

Fortunately, it is no longer necessary to live at the seaside or near fresh water in order to have a plentiful supply of fish. Juicy salmon steaks from the Pacific Coast are familiar to every woman who keeps house, but not everyone is familiar with the other varieties of fish which the modern canning industry has given us. These are mackerel, finnan haddie and cod fish balls as well as shrimps, oysters and crabs that can be used as the piece de résistance of a meal or in entrées or salads. All these are within reach whether one is at home on a Western ranch or is spending the summer high up in the mountains.

Anchovies, pickled and spiced, have been famous since Roman times, but the modern housewife finds them a piquant hors d'oeuvre, or spread for crackers. Tuna makes a delicious hot-weather salad on those days when cooking is irksome. Spiced herring, so popular in Scandinavian countries, is another tempting dish for summer days, and sardines, either with mustard or tomato sauce, make a perfect picnic snack. It only takes a quick look at your grocer's shelves to decide not that there's just as good fish in the sea as ever was caught, but that most of it has been canned already.*

SPORT NOTES OF INTEREST

The "big game" this week is the encounter between the Bears and the Trojans at Berkeley. Stanford is away for the day, meeting Washington at Seattle. The Berkeley game might prove another walkaway for the Trojans.

Happy days are coming for the Bears, however, if the result of the freshman scores are any sign. The Cubs walloped the Southern California yearlings by a score of 23 to 0. Stanford frosh lost to Bakersfield J. C. by a 16-7 count.

MARRIAGE APPLICATIONS FILED WITH CUPID HINMAN

The following applications for marriage licenses have been filed with County Clerk Hinman at Redwood City:

John M. Daly, 48, Atherton and Martha Norton, 39, Palo Alto.

Philip W. Bruce, 35, Menlo Park, Cleora W. Gilbert, 38, Palo Alto.

Herman Kern, 28, Anna Branch, 26, both of Menlo Park.

Harry Lusk, local electrician has several men engaged in installing the new traffic signals.

You can save miles of steps!

HOW FAR does a woman walk every day, conducting the affairs of her home? Anywhere from 2½ to 15 miles a day, according to investigations recently reported from Ohio State University.

Important as a means of cutting down unnecessary steps and reducing "mileage" in the home, is the *Extension Telephone.*

You can have a wall-type Extension in your kitchen or elsewhere for only a few cents a day.

I like plenty of hot water INSTANTLY

Natural Gas makes this service cheap

YOU CAN'T BE CLEAN without hot water. And hot water without delay or bother saves your time and energy.

Around the house, instant hot water cleans two to twenty times faster. Think what a time saver this is to the housewife. It gives her hours of freedom each week for pleasures.

As for cost, instant hot water costs less per gallon than any other method of heating water. This is especially true now because of cheap Natural Gas.

An Automatic Gas Water Heater

You never watch the Automatic Gas Water Heater

The Automatic Gas Water Heater requires no watching. It heats water to 140 degrees, stores it, and turns itself off. All you ever do for a basinful or a tubful of hot water is to turn the faucet any time of the day or night. The water stays hot because the boiler is insulated. No gas is wasted.

Stop in today at our office and see the Automatic Gas Water Heaters. You can have one installed in your home now for a small sum, the balance to be paid in monthly installments.

FRUIT COCKTAILS FINE

THE modern hostess has discovered that there is no more tempting way of beginning a luncheon or dinner than by serving a cool delicious fruit cocktail. But she does not confine cocktails to these hours, by any means. Frequently she serves them to guests for tea, or at an evening party, arranging the colorful fruit in crystal clear glasses, which she places on a dainty tray, spread with gay linen.

The variety of fruits at the disposal of the housewife today is so great that there is no danger of monotony. She might easily serve a different cocktail every day. Canned fruits come to her from the ends of the earth, and new combinations and new flavors are constantly being introduced.

A Real Treat

If you have not formed the fruit cocktail habit, you have a treat in store for you. You will find the fresh tart fruit juices a real appetizer for the hot days of late summer. Here are a number of recent recipes including many favorite fruits.

Blueberry Cocktail: Combine contents of a No. 2 can blueberries and three tablespoons lemon juice, arrange in glasses and chill. Just before serving, slice two bananas, and place a circle of banana rings upright around edge of glasses. Serve immediately. This serves eight.

Pear Cocktail: Cube and divide into six cocktail glasses contents of a No. 2 can of pears, and pour over them the pear syrup. Add one tablespoon grenadine syrup to each glass, and chill well. This serves six and costs about thirty-seven cents.

Orange and Tomato Juice Cocktail: Strain a No. 2 can of tomatoes, not pressing the pulp or the juice will be cloudy. Add the juice of two oranges, two teaspoons sugar and a few grains of salt, and serve, ice cold, in small glasses. Cost twenty-one cents. This serves six.

Waikaiki Cocktail: Arrange two eight-ounce cans of figs, cut in suitable pieces and two eight-ounce cans of grapes in cocktail glasses. To the fig and grape syrup add the juice of two lemons and the juice of one orange, and pour over the fruit. Garnish on top with tiny cubes of guava and mint jelly. This serves eight.

More Cocktails

Ginger Cocktail: Drain and dice a No. 1 can apricots and arrange in glasses with one cup diced sliced pineapple. Place peeled sections of three oranges, petal fashion, around edges of glasses. Decorate tops with three tablespoons of raspberries, strawberries or maraschino cherries. Sprinkle candied ginger over, and add one teaspoonful ginger syrup to each glass. Just before serving, pour over one-half cup ginger ale. This serves eight.

Macedoine Fruit Cocktail: Drain the syrup from a No. 2½ can of fruits for salad. To it add four tablespoons sugar and one tablespoon preserved ginger syrup, and cook to a thick syrup. Cool. Cut fruit in small pieces, add the syrup and dispose in serving glasses. Just before serving, pour over some iced ginger ale, and decorate with bits of angelica. This serves six to eight.

Cherry and Almond Cocktail: Empty a No. 2 can Royal Ann cherries into a sauce pan, color a rich red, and simmer three minutes. Add one-fourth cup confectioner's sugar, one-fourth cup lemon juice and one-fourth cup maraschino cherry juice, and let cool. Then cut slits in each cherry and remove pits. Cut one cup almonds in half lengthwise and insert a piece in each cavity. Place cherries carefully in cocktail glasses with the nut ends protruding upward like acorns. Pour over the syrup, and chill in ice box. This serves eight to ten.

Sacramento Panthers Beat Menlo Oaks 7-0

Capitol City Eleven Scores On Long Run

By the margin of one 32 yard run to a touchdown, Sacramento J. C. turned back the Menlo eleven 7-0 in a night game Saturday at Sacramento.

In a hard fought scrap from start to finish, Sacramento took advantage of a break early in the second quarter and with a lucky off tackle play through the left side of the line Miller of the Capitol City eleven managed to make a long run to a touchdown. A kick that looked a trifle wide was allowed by the referee for the extra point.

Menlo's luck went bad early in the first quarter when Bud Shreve was forced out of the game with a wrenched knee. This loss hampered the local's offense, however, they played good defensive ball the rest of the contest.

The game was not spectacular except for the passing attack which both teams opened in the second quarter. Sacramento attempting 17 and completing 6 and Menlo trying five and completing two.

During the second half Menlo was frequently in Sacramento territory, but was unable to score, making four first downs to 13 for Sacramento.

SPORT SKETCHES

By Theron Fox

One San Jose team that is getting over its opponents at a regular clip is the 110-pound basketball team coached by L. B. Vogt. They trounced San Mateo by a 22-19 last week.

Santa Clara's victory over the Olympic Club on Saturday was some consolation for local fans. Pre-game dope figured the two elevens at even money, but the Broncs were 19-6 victors.

Who says that they don't come back? The Trojans treated the Oregon team rather roughly. Rather! The final score was 53-0, but most of the customers did not stay that long.

The Bees lost a close game to San Francisco last Sunday. The score favored to Pacific Coast League champs by a 3-1 score.

Burlingame Beaten By Acorn Gridders

Hubbard's Men Conquer Panthers By 14-0 Score

Another P. A. L. scalp was added to the belt of Coach Bill Hubbard's big blue team, last Thursday afternoon at Burlingame. The victim this time, was the Burlingame high school, bowing to the Menlo preps to the tune of 14-0.

Menlo scored in the first few minutes of play, when Captain Brewer picked a poor punt out of the air and returned it to Burlingame's 25 yard line. A pass, Gunn to Brewer, was good for seven yards, and then Flanders went around end for a score. Gunn converted.

Action in the second half started when Bud Brewer intercepted a pass. An exchange of punts followed with Menlo finally getting the ball in mid-field. From here, with Gunn, Flanders and F. Brewer packing the ball, Menlo marched to a touchdown. Gunn made this score breaking through from the six yard line. He converted.

The lineup for Menlo was:

R. E., S. Thomas.
R. T., C. Thomas.
R. G., Will.
C., Fleishhaker.
L. G., White.
L. T., Clumeck.
L. E., Seager.
Q., F. Brewer.
R. H., M. Brewer.
L. H., Flanders.
F., Gunn.

Hubbard Gridmen To Meet Tamalpais Here

Jonas, Haggard In Shape For Coming Tilt

In their only home game of the season, the Menlo high gridders tangle with Tamalpais school, here on Saturday morning.

Tamalpais defeated Menlo last year 13-7. At that time Tamalpais was a member of the Private School conference, but since then has withdrawn from the league.

Rumors have come from the Marin county school that they have a better than average team with Captain Keisel as the star. That they have offensive power can readily be seen in the score of the Tamalpais-St. Vincents game. Tamalpais had things their own way winning by 54-0.

Menlo's "boy coach," Bill Hubbard, in a recent interview stated that the only thing that could stop Menlo Friday would be "overconfidence and Keisel."

Captain Brewer and his team came out of the Burlingame game with only minor injuries, so Menlo's strongest team should be able to take the field on Friday.

"Chuck" Jonas and "Milt" Haggard, two of Menlo's shining lights, who did not see action in the Burlingame contest, due to injuries, have been fast mending into shape and should be in top shape for the Tamalpais game.

Coach Hubbard has eased down his charges during practice, and has held scrimmage to a minimum hoping that the Menlo team will make use of the stored up energy on Friday.

Substitutions: Kenly for Will, Michaels for Thomas, Howell for Fleishhacker, Davidson for C. C. Thomas, Simpson for F. Brewer, Arkush for Bud Brewer, Watson for Gunn, Neally for Flanders, Rauhut for Watson, Beal for Clumeck.

Gotham Has World's Tallest Hostelry

THIS hotel, said to be the tallest in the world, has just been opened in New York. It is the new Waldorf-Astoria. The view of it is taken looking south on Park avenue.

Mother's Cook Book

Fine, clear, dazzling morning, the sun an hour high, the air just tart enough. What a stamp 'n advance my whole day receives from the song of the meadow lark perch'd on a fence stake 20 rods distant! Two or three liquid-simple notes repeated at intervals, full of careless happiness and hope. With its peculiar shimmering slow progress and rapid-noiseless action of wings, it flies on a way, lights on another stake, and so on to another, shimmering and singing many minutes.

—WALT WHITMAN.

CANDY FLAVORED DISHES

A FEW varieties of candy used to flavor or enhance the appearance of a dish add variety to the menu and a delight to the eater. The following dish has been used for several years, so is not new; but for those who have not tried it, here it is:

Cinnamon Apple Jam.

Quarter and peel two and one-fourth pounds of apples and simmer for five minutes in a half cupful of water in a covered saucepan. When the apples are soft put them through a sieve; add five cupfuls of sugar, two-thirds of a cupful of cinnamon candies, and boil hard for one minute. Remove from the heat and add one-fourth cupful of pectin, skim and pour into glasses or jars. Cover with a thin film of paraffin while hot; when cool cover with another layer to insure perfect sealing.

Gum Drop Orange Sherbet.

Cut six squares of angel food, arrange on a serving plate and spread each portion with a mound of sherbet, topped with cream and garnished with quartered gum drops. The quart of orange sherbet may be made at home if convenient.

Peppermint Cup Cakes.

Cream one-fourth of a cupful of butter, add two-thirds of a cupful of sugar and two beaten eggs. Mix and sift two cupfuls of flour, two teaspoonfuls of baking powder and one-fourth teaspoonful of salt. Add to the first mixture, alternating with three-fourths of a cupful of milk. Stir thoroughly, then drop the mixture into muffin tins. Sprinkle the tops with peppermint sticks that have been ground fine through a food chopper. Bake in a moderate oven for 25 minutes.

California Custard.

Bring three cupfuls of milk to the boiling point with a half-inch slice of lemon rind in it. Remove the rind and add one-half pound of uncooked spaghetti in small pieces and one cupful of raisins. Cook gently until the spaghetti is tender, stirring frequently to prevent burning. Mix one-half cupful of sugar, a pinch of salt and two slightly beaten eggs, with one-half cupful of milk. Add to the spaghetti with one-half teaspoonful each of lemon extract and cinnamon; cook gently until the egg is set. Serve with cream.

NUTTY NATURAL HISTORY

BY HUGH NUTTON

THE ARCTIC NULF-NULF

The nolf-nulf is a mournful creature, weeping continually for the good old days. On account of this, the Eskimos keep them for igloo

pets, where they can conveniently use their blubber. The nolf-nulf whenever possible will shed crocodile tears, but cannot depend on this because of the rarity of crocodiles in the Arctic regions.

Except for the crocodile tears, the nolf-nulf is easily constructed. The body is a paper-shell pecan, and the head a double peanut. Popcorn in the popped stage forms the topknot. The legs are cloves, and the feet split lima beans.

Fur on Fall Coats

The new fall coats are richly trimmed with fur collars and cuffs. The one here shown is luxuriously decorated with blue fox skins, and the small-brimmed hat nestles under the upstanding fur collar.

Mercolized Wax Keeps Skin Young

Get an ounce and use as directed. Fine particles of aged skin peel off until all defects such as pimples, liver spots, tan and freckles disappear. Skin is then soft and velvety. Your face looks years younger. Mercolized Wax brings out the hidden beauty of your skin. **To remove wrinkles** use one ounce Powdered Saxolite dissolved in one-half pint witch hazel. At drug stores.

Not the Water

Bobby went swimming with his father one evening. When he returned he enthusiastically told his mother what a good time he had had.

"Was the water cold?" she asked.

"No, the water wasn't cold," replied Bobby, "but I was!"—Rochester Courier.

BABY FRETFUL, RESTLESS?

Look to this cause

When your baby fusses, tosses and seems unable to sleep restfully, look for one common cause, doctors say. Constipation. To get rid quickly of the accumulated wastes which cause restlessness and discomfort, give a cleansing dose of Castoria. Castoria, you know, is made specially for children's delicate needs. It is a pure vegetable preparation; *contains no harsh drugs, no narcotics.* It is so mild and gentle you can give it to a young infant to relieve colic. Yet it is as effective for older children. Castoria's regulative help will bring relaxed comfort and restful sleep to your baby. Keep a bottle on hand. Genuine Castoria always has the name:

Chas. H. Fletcher.
CASTORIA
CHILDREN CRY FOR IT

Bedtime Story by Thornton W. Burgess

BOWSER, THE HOUND, FINDS PETER

TIME was when Peter Rabbit looked on Bowser the Hound as a very dangerous enemy. But that was when Peter was young and knew less of the Great World. Also it was in the days before Farmer Brown's Boy had put away his terrible gun. Then the sound of Bowser's great voice sent a chill of fear over Peter, for he knew that unless he could fool Bowser's keen nose Bowser would surely lead Farmer Brown's Boy to where he was, and then—well, then there was that terrible gun.

But since Farmer Brown's Boy had put away his terrible gun and no longer hunted Peter and the other little people of the Green Forest and the Green Meadows, the sound of Bowser's great voice no longer sent shivers of fear chasing one another all over Peter. Truth to tell, Peter rather enjoyed an occasional run with Bowser. It kept him in good condition. He felt that it was good for him. Peter especially enjoyed such runs in cold weather. They set his blood racing and made him feel warm and full of high spirits. He would run

But Peter Sat Right Where He Was and Chuckled.

in circles and use simple tricks to mix his trail up so that he could sit down and enjoy listening to Bowser's impatient yelps as he tried to get the trail straightened out. It was a kind of game which Peter enjoyed, and which he knew that Bowser enjoyed. Then when Peter grew really tired he would simply skip into the dear Old Brier Patch or the nearest bramble-tangle, or a hollow log where Bowser couldn't follow him and not care the least bit that Bowser knew just where he was. No, Peter was no longer the least bit afraid of Bowser the Hound.

So as he sat in the bramble-tangle the morning after his narrow escape from Old Man Coyote, trying to think of some way to get back to the dear Old Brier Patch without giving Old Man Coyote a chance to catch him, he was not in the least bit frightened or troubled when he heard a rustling of feet among dead leaves, and peeping out saw Bowser himself sniffing and snuffing as he tried to find the scent of some one to chase. He knew by the way that Bowser acted that his wonderful nose had found just enough scent to tell him that some one had been along that way, but not enough for him to be sure which way they had gone, for after a few hours scent disappears. Hunters say that it grows cold. So the scent left by Peter and Old Man Coyote in the night had grown cold. There was just enough of it left in damp spots to tell Bowser that they had been there, but not enough for him to be really excited about.

Now Bowser is very patient, and he ran this way and that way sniffing the ground all over so that he would be able to find a trail fresh enough for him to follow, for Bowser was feeling just like a good run that morning. So presently he came to the old bramble-tangle where Peter was hiding, and then a wandering little breeze brought him the scent of Peter fresh and strong. Instantly Bowser knew that Peter was somewhere in there, and right away he became very much excited. His tail began to wag as if he would wag it off, a way he has of doing when he is hunting. Peter almost laughed aloud as he watched.

All around the edge of the old bramble-tangle went Bowser, sniffing, snitting, and whining as he looked in among the brambles trying to see Peter, and at last he did see him sitting right in the middle. "Bow, wow, wow!" roared Bowser fiercely and tried to crawl in through the old brambles. But the old brambles scratched Bowser's tender ears and made him yelp, so that he was glad to back out and try another place.

"Bow, wow, wow!" roared Bowser again. "Come out and run, or I will come in and get you!" and he made himself look as fierce as he could.

But Peter sat right where he was and chuckled. He knew that Bowser never could catch him in that old bramble-tangle, and he wasn't the least bit frightened. In fact, he enjoyed seeing Bowser try so hard to frighten him. Besides, it took his mind off of the worry of how he was going to get back to the dear Old Brier Patch without falling into the clutches of Old Man Coyote, who, he knew, was hiding somewhere along the way there. You see he told Peter that he never would go back there again.

The Fraternity of Age

By DOUGLAS MALLOCH

WELL, here we are, all growing old together;
You think it's only you, I only I;
Yet colder grows to each the colder weather,
And not a one Time ever passes by—
I sometimes very greatly wonder whether
Time knows there are the humble and the high.

The Croesus, and the beauty, and the scholar,
Grow gray around the temples, like the rest,
The vagrant on the road, without a dollar,
Is in that same procession walking west.
The gray hair falls upon the curate's collar
As well as on the sinner sans a vest.

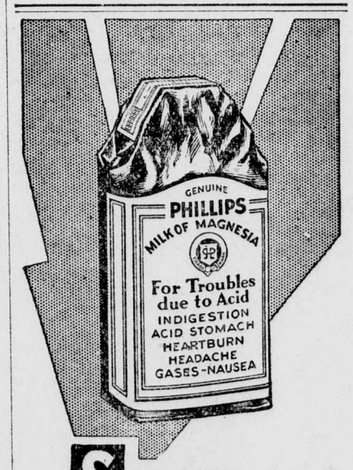
I think, perhaps, that here's our only error:
We walk together, yet we walk alone.
The while the journey would lose half its terror
If we would laugh together at the stone.
The common highway always is the fairer,
Yes, fairer than some tow-path of our own.

The lonely scowl, the many are the merry,
Sharing discomfort in some crowded place.
Upon the train, the overloaded ferry,
We bear our burdens with a better grace.
The years are heavy, but are not so very,
If met together, with a smiling face.

(©1931, Douglas Malloch.)—WNU Service

Tattooing

Among primitive peoples the original purpose of tattooing was probably decorative, then it began to take on a tribal and religious significance. Among the white races of today, those who are tattooed have this done simply for decorative purposes.



Won't Eat

There's a reason—

When your child refuses its meals, is irritable, restless or feverish, the chances are worms are the cause. Careful mothers treat promptly with Dr. Jayne's Vermifuge, the foremost remedy for intestinal parasites. Worms are not always passed in recognizable form, but an improvement in your child's health will show that your judgment was correct. Your druggist will tell you that many of your friends have used Dr. Jayne's Vermifuge successfully. DR. D. JAYNE & SON, Philadelphia.

SOUR STOMACH

JUST a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective yet harmless. It has been the standard antacid for 50 years. One spoonful will neutralize at once many times its volume in acid. It's the right way, the quick, pleasant and efficient way to kill all the excess acid. The stomach becomes sweet, the pain departs. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine.

The ideal dentifrice for clean teeth and healthy gums is Phillips' Dental Magnesia, a superior toothpaste that safeguards against acid-mouth.

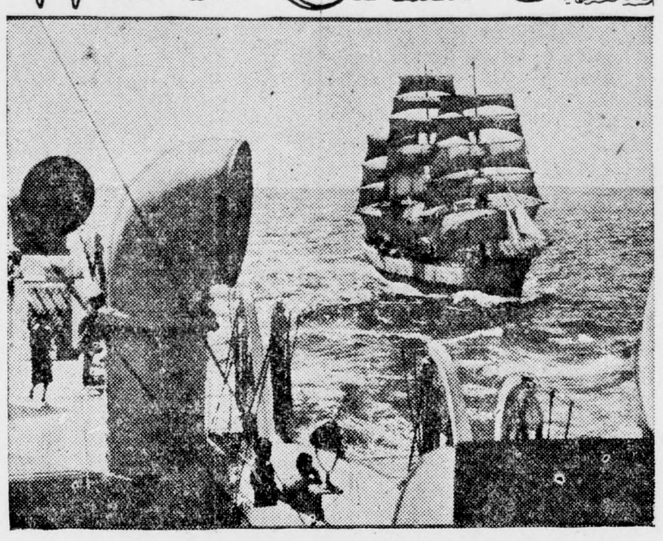
Very Annoying

"It makes me mad to have my husband talk in his sleep."

"The poor man can't help it."

"Maybe not, but it looks like an intimation that I don't give him a chance while he's awake."

WIND SHIPS



Thrilling Spectacle of a Full-Rigged Ship at Sea.

(Prepared by the National Geographic Society, Washington, D. C.)

THE lowly but romantic tramp steamer, whose rusty iron sides and smoky stacks are known to every seaport in the world, has largely joined the sailing ship at anchor. Whereas but a third of the world's tonnage was carried in regularly scheduled liners in 1913, now more than three-quarters is transported in this fashion, leaving very little for the independent roving steamer or sailing ship. Canadian grain once crossed in tramp steamers. Now a half-dozen regular lines ply the North Atlantic. Norwegian timber and Pacific coast timber, even, are moved on big liners following a schedule.

Changing economic and social conditions are last vestiges of the pioneer spirit of the seamen of another day. The seamen themselves are different. They want steady work and fixed wages, and they like to ship on steamers with a regular schedule, allowing them to make plans in port.

Out-of-the-way parts of the world are again becoming the lonely, isolated spots they were before the day of the great explorers or the era of sailing clippers. The number of ships that round Cape Horn, for instance, now is fewer and becoming steadily fewer.

Steamers have no need to go that way. If they are coming from Australia to Europe, Suez and Good Hope are shorter and kinder routes. If they are bound from or to New Zealand, there is Panama. If they are outward or homeward bound in the West coast trade, Panama canal, too, is much more convenient, even for the far southern port of Valparaiso. In the unusual event of a steamer passing to the south of the American continent—say, on passage from Buenos Aires to Talcahuano—nine times out of ten she will use the Magellan passage, or, failing that (for visibility is often bad there and currents treacherous), she will pass between Tierra del Fuego and the small island the southern tip of which is the dreaded Horn.

Some Sailing Ships Around the Horn.

Even sailing ships avoid Cape Horn now, when they can. It is a regular thing for the guano barks, coming up from Guanape, Lobos, and Santa Rosa for Jacksonville, Wilmington, or Falmouth for orders, to pass through the canal instead of using the old highway to the south and doubling the Horn. Indeed, in the grain race of 1930 one sailor from Australia, the Swedish four-masted bark C. B. Pedersen, actually made her way into the Atlantic by way of Panama instead of the Horn—an entirely unprecedented experience that would make a thousand old shellbacks turn in their graves.

But there still remains a small coterie of wind ships regularly using the Cape Horn road. There are the German nitrate carriers, the big four-masters of the Hamburg Laeisz line—Padua, Passat, Parma, Priwall, Parmir, and Peking—all splendid, upstanding, four-masted barks, powerful, clean-lined, speedy, and economical. They remain in commission to carry nitrate from German mines in Chile to German factories on the Elbe. They are manned largely by boys who must see service in deep-water, square-rigged ships before their country will allow them to sit for examination as officers. They are well found and make good voyages. Some of them are comparatively new ships. Two have been built since the World war; one of them, the Padua, as late as 1925. They carry no auxiliary engines of any kind. One of them, the full-rigged ship Pinnas, was lost in 1929.

These Germans, with the sailors of the Finnish fleet and one or two Swedes, just about comprise the whole of the world's sea-going square-rigged ships. America still has one or two; but, except for the four-masted Monongahela, which was in Port Adelaide in January, 1928, where she discharged a cargo of lumber, and the full-rigged ship Tusitala, which is a more or less regular user of the Panama canal, none is still in commission.

How the Sailor Gets Cargoes.

The majority of the square-riggers still rounding the Horn are in the grain trade from Australia. This is the last happy hunting ground of the big sailing ship, which has been steadily ousted from every other trade it ever enjoyed, even the carrying of Peruvian guano. When Australian wheat harvests are heavy and steamers are inclined to ask high freights because of the difficulty of getting outward cargoes, the sailor still has a chance of sneaking an odd cargo here and there.

She is prepared to accept a much lower freight rate than the steamer. She will go to any outlandish port and register no objection at spending six weeks or more at loading. She will discharge her own ballast at her own expense. She does not mind sailing halfway round the world in ballast if only there is the chance of a cargo at the end of it, and she carries her wheat well and delivers it in good condition.

She has the added advantage, sometimes, of bringing about a gamble to her charterers. She may load on a falling market and set out with her wheat worth shillings below payable price. She takes months on her voyage, providing good free warehouse on the way, and sometimes has the luck to arrive in time to take advantage of an upward trend of which there was no sign when she left.

For this reason shippers still like to take an odd gamble with a sailing ship, particularly in recent seasons, when wheat prices have been so dull that the grower's hope lies in some unforeseen upward trend when "bottom has been touched."

The Swedish four-masted bark Beatrice in 1930 was chartered to bring home wool from Melbourne to London—a trade which throughout this country has been religiously the exclusive right of the steamer—simply because she provided long warehousing by the duration of her voyage, and there was a chance that prices would rise while she was on her way.

She was 110 days on the passage, and her charterers had the satisfaction of clearing better prices for the wool they sent in her than they obtained for any they had sent in steamers. The steamers had discharged their wool on a falling market months earlier; the Beatrice arrived to find stocks lower and prices slightly higher. As her freight rate was lower than the steamer's, her chartering was profitable to the wool owners.

But against the lower freight rate has to be offset the tendency on the part of underwriters—natural, perhaps—to charge a higher premium for the insurance of sailing ships' cargoes.

"Races" That Are Not Races.

Since the World war, a few sailing ships have been able annually to obtain wheat charters from Australia to the English channel for orders, since they all leave about the same time, and since their scarcity brings them to the notice of the press and of the public, their sailings have come to be known as "races," though they are not really anything of the kind. Some of those ships are in no fit condition to race, some of them never were. They are not proud clipper ships, built to run fleetly before the gale and to carry steerageway through doldrum calms. They are great cargo-carrying steel wagons, wall-sided and heavy lined with bluff bows and heavy sterns, oversparred and undermanned. They make rare visits to dry docks, since dry-docking costs money and must be a luxury to them. They run upon the border line, with crews of inexperienced boys; their gear is old; sometimes their plates leak a little, here and there, and they are badly off for sails.

There are still a few ships which are able to give good accounts of themselves, and generally do—the Finnish four-masted bark Herzogin Cecilie, which was formerly a Norddeutscher Lloyd training ship; the Swedish four-masted bark Beatrice, formerly the Clydesider Routenburn; the ex-Englishman Archibald Russell, and the old Dundee-built Lawhill—but the bulk of the ships progress slowly over great waters and are content if they come to port at all, without racing.

They are more concerned with the safe delivery of their cargoes and the return to their homes of all those who set out to sea in them than spectacular and thrilling holding on of sail in heavy gales and forcing the ship in short tacks against head winds.

Cardiac Vigor Affected by Pleasure and Pain

The heart is called by Dr. Charles Fiessinger "the signal bell of the emotions." It responds to the least nervous shock, breaks into sudden palpitation, slows up, and resumes its normal rhythm.

But it does not always react in the same way. Its behavior varies according to whether it is affected by an exciting emotion or by a depressing one. Joy, pleasure, agreeable events, act in one way; deception, anguish, grief, or pain have entirely opposite effects.

There is no better tonic for the heart than pleasure. Under its influence an affected heart may regain health, or at least may recover from its past injuries; a heart moved by happy feelings beats more quickly and powerfully.

Professor Merklen tells a story of a missionary, suffering from dilation of the heart, who recovered completely when he heard of the conversion of a group of Chinese. His delight had worked a miracle.

The inverse is no less true. Any depressive emotion acts to diminish cardiac vigor. Persons have been known whose hearts responded to each onset of ill-fortune. This action may be powerful enough to bring on syncope, or even sudden death. But such cases are fortunately exceptional. Cases of gamblers who have died at the baccarat table in the course of an exciting game have been several times reported, though rare.

Patients who suffer from attacks of angina may also succumb in the course of quarrels or discussions. They do not even cry out, but faint, and never revive.

To Delve Into Mystery of Old Mexican Ruins

The Pathway of the Dead, leading from the Pyramid of the Moon is to be restored this year as part of the government's campaign to penetrate the mysteries veiling Mexican civilizations before the Spanish conquered the country and destroyed so much because it was heathen.

The Pathway of the Dead is about one and one-half miles long, not far from Mexico City, and runs between two rows of burial mounds. In addition to bones, knives and such things found in the mounds, were found clay heads, believed to be effigies of interred priests. The ruins are Toltec, and were preserved by the Aztecs because this was Teotihuacan, the sacred town of the Toltec Indians who had preceded them.

New sites discovered in Queretaro are Toluquilla and Ranas, about 20 miles apart. They have the aspect of fortress cities, and important discoveries are expected. Although virtually everything there, including several great ball courts and much pottery, points to Toltec culture, there is also evidence of Totonac culture. Yokes, sculptured in stone, are typical only of Totonac culture. Some of these, found there, are believed to have been used to weight down the head in human sacrifice.

The ruined Mayan town of Palenque, which contains some of the best examples of Mayan art ever found, is to be entirely cleared. At present 20 acres has been dug out of the thick forest that covers it.

Excavations to be made at the comparatively newly discovered Zapotec ruins of Monte Alban are expected to shed much light on this civilization, since Zapotecan data is scarce. Monte Alban is situated along a mountain ridge, and surrounding it are fortresses and shrines.

At Chichen Itza the Ball court and the Temple of the Tigers, adjoining ruins of great importance will be reconstructed. The Ball court was a rectangular field inclosed by massive walls, the Indians playing a game that is believed to have been similar to modern basketball.—Theodore A. Ediger, in the Detroit News.

A Big Loss

"What's this nonsense about Joe Miller's losing $10,000?" asked Uncle Henry.

"It isn't nonsense," replied Aunt Martha. "Joe wrote a book for that big contest and didn't win the prize."

Send your Christmas Cards with a *Smile!*

IT WILL be easy to find the card you want—if you shop early. And you'll get a lot of enjoyment—a real thrill—from sending cards at your leisure. But there's no leisure that last week before Christmas. So prepare for mailing now. Your cards will not only be received with a smile—they'll go with one, too!

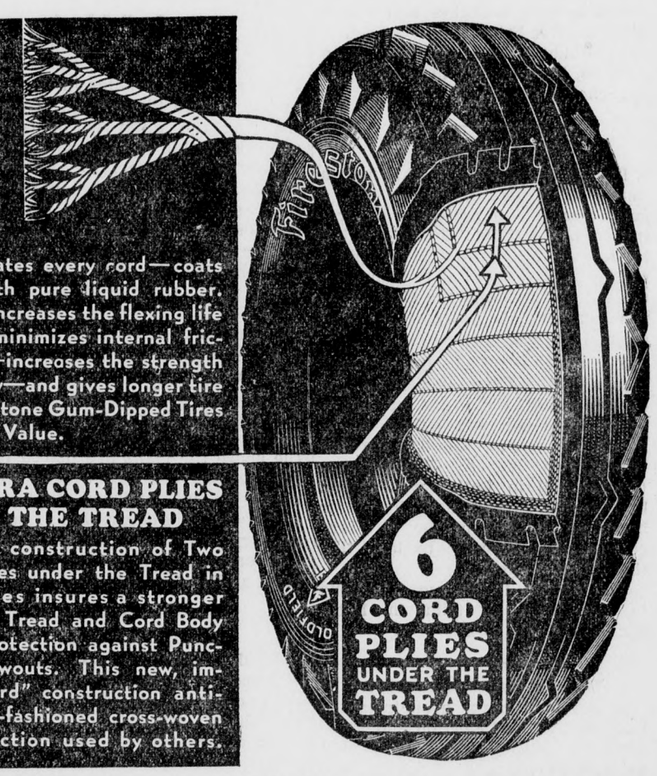
Stronger • Tougher • Safer

THE patented construction features, explained here, make Firestone Tires stronger, tougher and safer. You get these extra values only in Firestone Tires—but you pay no more for them because of Firestone economies in buying, manufacturing and distributing.

We do not ask you to just take our word for these extra values. We invite and urge you to go to the Firestone Service Store or Service Dealer in your community—compare sections cut from Firestone Gum-Dipped Tires and special brand mail order tires and others. Check them for yourself. *You be the judge.*

Drive in today!

Listen to the Voice of Firestone
Every Monday Night Over N. B. C.
Nationwide Network



GUM-DIPPED CORDS
Every cord in Firestone Tires is Gum-Dipped. This patented extra process penetrates every cord—coats every fiber with pure liquid rubber. Gum-Dipping increases the flexing life of the cords—minimizes internal friction and heat—increases the strength of the tire body—and gives longer tire life. Only Firestone Gum-Dipped Tires give this Extra Value.
TWO EXTRA CORD PLIES UNDER THE TREAD
This patented construction of Two Extra Cord Plies under the Tread in Firestone Tires insures a stronger bond between Tread and Cord Body and greater protection against Punctures and Blowouts. This new, improved "all cord" construction antiquates the old-fashioned cross-woven fabric construction used by others.
6 CORD PLIES UNDER THE TREAD

Needed th Trappings to Lure "Other Sucker"

The late Chief Justice William Howard Taft told, with many characteristic chuckles, this story to which an obvious political moral can be attached, says Collier's Magazine.

An old Quaker who wore the characteristic old-time Quaker costume—wide-brimmed, flat hat and shad-bellied coat—sold a horse to an ordinary citizen.

After the horse had traveled a few miles and the dope had died out, it proved to have spavin, ringbone, heaves, incipient blindness and other horse maladies. In great anger and with much difficulty the stung purchaser dragged the decrepit wreck back to the man from whom it had been obtained at a fair price.

On seeing the irate buyer and the tottering horse approach, the Quaker flapped his hand forbiddingly and cried out:

"Thee bought him of thine own volition! Thee bought him with thine eyes open—"

"Yes, but—"

"I repeat, thee bought him willingly; I did not force him on thee; I can do nothing for thee!"

"Oh, shut up!" said the victim. "I don't ask you to take the animal back. I just wanted to borrow your coat and hat so I could sell him to some other sucker."

Philosopher Sets Fifty as Golden Age of Man

While drinking a bumper of apple cider, there awhile back, one day at a roadside caravansary, a man asked us what age would we choose to be if we could live for a thousand years.

It was a funny question to ask. Maybe we would not care to live a thousand years more. And yet we sometimes think we would. It might be interesting to see what the world will be like a thousand years from now.

Well, anyway, we said if we could have the say about it, we would decide to go through the thousand years at the age of fifty. Not twenty-one nor ninety-one, but fifty.

Fifty seems to be the ideal age, writes John Steven McGroarty, in the Los Angeles Times. A normal man or woman ought to be in ideal shape at fifty. Still virile, not yet senile, all the mistakes and follies of youth left behind.

No doubt others will not agree with us, but anyway, fifty would be our choice.

Anatomical Names

In the body, one might find a bunch of grapes, a cuckoo bill, a small pan and a millstone, according to Lloyd Edwin Smith, writing in Hygeia Magazine. Many parts of the body were at first named by the old Romans and the Greeks for the commonplace objects that they seemed to resemble.

The bunch of grapes (or its name means that in Latin) is the red lobe of the palate, the uvula. It hangs down from the soft palate as a bunch of grapes would hang between two leaves. The coccyx (cuckoo bill in Latin) was named because the curvature of these four bones at the end of the vertebral column were thought to look like the bill of a cuckoo.

The patella is the movable bone in the knee. Patella in Latin means a small pan.

Woman Suffrage in 1797

Why has it never been imagined that the right of election should be extended to women? Why! but because by the law of nations and perhaps also by the law of nature, that sex is dependent on ours; and because, therefore, their voice would be governed by the relation in which they stand in society. Therefore it is, sir, that with the exception of companies in which right of voting merely affects property, it has never been in the contemplation of the most absurd theorists to extend the elective franchise to the other sex.—Charles James Fox in Speech on Parliamentary Reform, 1797.

Growing Film Markets

The Far East and Africa seem to be going movie crazy, and have opened up a fine market for American motion picture equipment. For a time Germany had cut in on the American trade, because of lower-priced equipment, but with the advent of the talkies and the necessity of installing new apparatus for their showing, the market for American output has been given new life. Last year 4,180 projectors were exported from this country to a total value of $805,000. Asia, Africa and Oceania took nearly one-third of all the shipments.

Beauvais Tapestry

Beauvais, so often seen by tourists on the way from Dippe to Paris, now has a new, although sad, interest as the scene of the great dirigible disaster of October 4, 1930. It is an ancient town, where great tapestries have been made for centuries. Tourists have chiefly sought it for its interesting cathedral and for its Place de l'hotel de Ville, which contains a statue of Jean Hachette, who led the women of Beauvais to victory against Charles the Bold in 1472.

Great Bankers Evolved From Merchant Princes

Most of our great financial leaders emerged from the dry goods or clothing business. Forerunners of our present big private bankers were the merchant princes. Even today in England the Rothschilds, the Barings and the Morgans are called merchants rather than bankers. One section of the United States was particularly prolific in developing a type of international merchants. The Yankee of New England was a born trader. From earliest Colonial days New England owned ships that scoured the seven seas in search of merchandise and trade.

George Peabody from Boston was the great seller of American securities to English investors during the Civil war. Junius S. Morgan, who carried on his business after his death, also came from Boston. The son of Junius S. Morgan, John Pierpont Morgan, lived in Boston as a boy and went to the English high school. The names of the great merchant princes of New England, the Lowells, the Lawrences, the Cabots, the Appletons, the Lees, the Higginsons, and many others are freely intersprinkled through the early history of the beginning of New England banking.

World Slow to Adopt Idea of Christian Era

It was the custom of ancient people to reckon their chronological eras from some great historical event, for example, the Romans from the foundation of Rome, the Greeks from the establishment of the Olympic games, the Babylonians from accession of Nabonassar, etc. Consequently when Christianity became the established religion of the Roman empire, it was natural that the supposed date of the birth of Christ should replace that of the founding of Rome as a means of reckoning dates. A Roman abbot, Dionysius Exiguus, introduced this method into Italy in 533 A. D., fixing the birth in the year 754 of the Roman era, though he began the year 1 with the Annunciation, March 25 of the previous year. The use of the new Christian era was introduced into France and England in the Eighth century, but it was slow in receiving official recognition. Charlemagne appears to have been the first secular authority to use it.

"Tin Can" Island

The island of Niuafou, in the Pacific ocean, about 300 miles from Fiji, is but three miles in diameter and is shaped like a ring. Outside the ring the water is, of course, salt, but within it lies a lake which is only slightly brackish. No doubt the island is the crater of a volcano—a mountain which rises almost straight up from the deep oocean bed. Similar volcano craters lie upon islands within the island itself, and these become active every 15 or 20 years. Strangely enough, this queer island has quite a large population. Its inhabitants number nearly 1,500 Tongans and a sprinkling of Europeans. In rough weather no ship can reach Niuafou, but as a strong current sets toward the shore the mails are placed in a soldered tin box and thrown overboard, to be retrieved by native swimmers. This queer kind of postal delivery has provided Niuafou with a second name. It is known familiarly as Tin Can island.

Reads Handshake

London, England, has a resident, G. Brook, who claims to be able to read character infallibly from a handshake. "There are, roughly, seven different handshakes," he said —"the tepid, the too eager, the too firm, the hesitant, the unnatural, the too prolonged, and the fingertip handshake." Mr. Brook has found jobs for 10,000 men in all branches of business in the last few years, all by shaking hands with them. And he himself is as romantic as his system. He was once a newsboy; then he became a packer in a margarine factory, a shop assistant, and a sales manager with a salary of $10,000 a year.

Mystery of the Sun-Cure

Hippocrates was one of the first to recognize the powerful antiseptic and healing properties of light. He treated various diseases successfully by exposing the patients to sunlight, but the mystery of exactly how sunlight accomplishes marvelous cures has not been solved fully even today. From then until now as the employment of sunlight as a healer has increased, the use of the surgical knife has decreased in countries such as Switzerland, where sun cures and sunlight treatments have been practiced for many years.

Troubles Enough

When Dante Gabriel Rossetti was painting the now famous reredos at Llandaff cathedral, he took so long over them that the dean and chapter asked the bishop of Llandaff, who was going to London, to call at Rossetti's rooms in Blackfriars and try to discover what was the cause of the delay. A maid opened the door to the bishop, at once informed him that Rossetti was absent, and on learning what the bishop had come about, exclaimed:

"Oh, lor', sir, Mr. Rossetti don't paint now—he's married!"—Kansas City Times.

Roofed With Turf

In the ancient Hardanger village of Vik, in Norway, the tourist will find an epitome of many of the attractions in this region. It is one of the oldest and most picturesque. Here will be found some of the old turf roof cottages. The turf is laid on several layers of birch bark, and is absolutely waterproof. Spinning wheels and looms will also be found in some of the homes. The church is a typical peasant church of pre-Reformation days and one of the first of its kind. It has ancient frescoes and carved furniture, all the work of local talent. An ancient leather collection bag, fixed to the end of a long stick, has a small bell attached to awake the sleeping worshipers.

NOTICE TO TAXPAYERS

County Taxes 1931

Notice is hereby given that the taxes on all Personal Property, secured by Real Property, and one-half of the taxes on all Real Property will be due and payable October 21, the third Wednesday in October, 1931, and will be

Delinquent on December 5th

the first Saturday in December, 1931, at 12 o'clodk M.

and unless paid prior thereto, 10 per cent will be added to the amount thereof. If the said first installment of said taxes be not paid before April 20th, 1932, at 5 o'clock P. M., an additional 5 per cent will be added to the amount thereof. The remaining one half of the taxes on all Real Property will be payable on or after January 20th, next thereafter and delinquent on April 20th, 1932, at 5 o'clock P. M., and unless paid prior thereto 5 per cent will be added to the amount thereof.

All taxes may be paid at the time the first installment, as herein provided, is due and payable.

Taxes may be paid any day at my office, except Sunday and holidays in Redwood City, at the Court House, between the hours of 9 A. M. to 5 P. M. Send description of your property when asking for tax statement. Notify this office of your change of address.

Address all communications regarding County Taxes to

A. McSWEENEY,
County Tax Collector, Redwood City.

The tax rade per $100 valuation for the City of Menlo Park is $6.347.

First publication in Menlo Park Recorder October 16, 1931, last publication October 23, 1931.

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

ANNA RYAN, Plaintiff
vs.
MATHEW B. RYAN Defendant
No. 19659

Action brought in the Superior Court of the State of California, in and for the County of San Mateo; and the complaint filed in said County of San Mateo in the office of the Clerk of said Superior Court.

JAMES DAVIS, MENLO PARK, CALIFORNIA, Phone 4791, Attorney for Plaintiff.

The People of the State of California Send Greetings to:

MATHEW B. RYAN, Defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff, in the Superior Court of the State of California, in and for the County of San Mateo, and answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this Summons, if served within said county, if served elsewhere within thirty days. This is an action for divorce on the grounds of wilful desertion.

And you are hereby notified that if you fail to so appear and answer, the plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.

Witness my hand and the Seal of the Superior Court of the State of California, in and for the County of San Mateo, this 9th day of October, A. D. 1931.

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

LOUIS CONTI Plaintiff vs.
CHRISTINA CONTI Defendant.
No. 19551

Action brought in the Superior Court of the State of California, in and for the County of San Mateo; and the complaint filed in said County of San Mateo in the office of the Clerk of said Superior Court.

JAMES DAVIS Attorney for Plaintiff.

The People of the State of California Send Greetings to:

CHRISTINA CONTI, Defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff, in the Superior Court of the State of California, in and for the County of San Mateo, and answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this Summons, if served within said county, if served elsewhere within thirty days.

And you are hereby notified that if you fail to so appear and answer, the plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.

Witness my hand and the Seal of the Superior Court of the State of California, in and for the County of San Mateo, this 16th day of September, A. D. 1931.

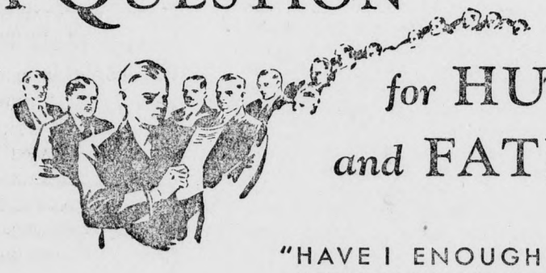
A QUESTION



for HUSBANDS *and* FATHERS

"HAVE I ENOUGH LIFE INSURANCE TO PROTECT MY FAMILY'S FUTURE?"

It is an important question because, for most of us, life insurance provides the best way to leave an estate adequate for the family's needs. Although this Bank does not sell life insurance, it does endorse its value in the building of an estate.

Many farsighted husbands and fathers, owning adequate life insurance, are providing one additional safeguard for their families—Life Insurance Trusts with Bank of America.

They know that only in rare instances do the beneficiaries of life insurance possess investment skill and experience. Capital may be spent as income, or imprudent investments may sweep away the proceeds. Through a Life Insurance Trust with Bank of America, dependable income is assured, with flexibility to meet emergencies.

Unique in its statewide service, this Bank places at your command, wherever you live, the specialized facilities of a metropolitan trust company. Call or write for our interesting new booklet, "The Modern Conception of Life Insurance".
